CORPORATE AND PARTNERSHIPS OVERVIEW AND SCRUTINY COMMITTEE

20 June 2016

CORPORATE RISK REGISTER

Report of the Corporate Director – Strategic Resources

1.0 **PURPOSE OF THE REPORT**

1.1 To receive details of the updated Corporate Risk Register.

2.0 BACKGROUND

- 2.1 Following a recommendation by The Audit Committee, the Leader of the County Council and the Executive Member for Central Services formally approved a revised Corporate Risk Management Policy on 3 March 2015 with a provision that it will be reviewed and updated every three years.
- 2.2 The Terms of Reference of the Audit Committee say that its role in risk management is to:
 - (i) assess the effectiveness of the authority's risk management arrangements and
 - (ii) review progress on the implementation of risk management throughout the authority.
- 2.3 Regular reports are presented to the Audit Committee to cover the implementation of the Policy and associated Strategy as well as other related risk management matters in order to fulfill this role. There will be a report going to Audit Committee on the 23 June 2016 which will include details of the recently updated Corporate Risk Register
- 2.4 The purpose of this report today is to provide details of the latest Corporate Risk Register to this Committee.

3.0 CORPORATE RISK REGISTER

- 3.1 The Corporate Risk Register (CRR) is fully reviewed every year and updated by the Chief Executive and Management Board in September/October. A six monthly review is then carried out in March/May.
- 3.2 A 6 monthly update of the Corporate Risk Register was carried out in April/May this year see attached at **Appendix A**. This involved reviewing the risks, risk controls and risk reductions that had been identified for each of the risks and making amendments to the Register where necessary.
- 3.3 The significant amendments that were made to the register are as follows:

- > Funding Challenges actions have been updated to represent the present position
- The Partnership and Integration with the NHS risk is a joint risk between Health and Adult Services and Children and Young People's Service. The emphasis of this risk has moved further towards Health and Adult Services and so the description has slightly changed to reflect this. Other minor changes relate to the actions.
- Information Governance further work continues to minimise data breaches such as the review of information asset registers and the secure transfer of data
- Educational Outcomes this risk has had an action added to reflect the changing landscape for schools and academies and the educational system
- Major Emergencies in the Community an action has been added relating to developing and implementing an NYCC action plan based on the debrief report recommendations and all multi agency learning, following the flooding incident last Christmas
- > Actions on risks have also been completed including:
 - 2020 North Yorkshire Change Programme implementation of the revised financial systems, review and update of the Behaviour and Skills Framework, the LGA corporate peer review and the review of governance and areas of future focus for the 2020 Programme Board
 - Health and Safety revision of managers' on line H&S training, 2nd stage review of the H&S function within NYCC and agreement of the new H&S structure with City of York Council for the shared service
- 3.4 To assist Members interpret **Appendix A**
 - Risks are identified by Management Board during a prep meeting and workshop
 - > Each risk has then to be ranked based on the following:
 - existing risk controls in place
 - probability of the risk occurring (based on existing controls)
 - impact of the risk occurring (based on existing controls)
 - further risk controls which may reduce current probability or impact
 - The prioritisation system follows a fairly traditional risk evaluation approach in that the **probability** and **severity** of risks is measured using High, Medium and Low categories
 - However, to facilitate the assessment of the severity of each risk this is done in relation to 4 distinct impact areas:-
 - failure to meet key service objectives and standards reflecting current service plans
 - financial impact
 - service delivery
 - loss of image or **reputation**

As each risk is ranked with reference to current controls and then future controls, the risk prioritisation system can compute a "score" in the range of 1 to 5

- 1 and 2 being a 'red' risk
- 3 and 4 being an 'amber' risk and
- 5 being a 'green' risk

One of the key things to look for in the Register is the movement of the score (described as Classification on the summary in **Appendix A**) as between the 'Pre' (i.e. present stage) and 'Post' (i.e. after risk mitigations are in place). For certain risks, however, this does not change as the risk mitigations cannot prevent the event (e.g. severe flood) but can address/reduce its impact.

6.0 **RECOMMENDATIONS**

That the Committee:

(i) notes the updated Corporate Risk Register (Appendix A).

GARY FIELDING Corporate Director – Strategic Resources

County Hall, Northallerton

June 2016

Author of report: Fiona Sowerby, Corporate Risk and Insurance Manager Tel 01609 532400
