Dear Sir/Madam,

The reason for applying for planning permission for a static caravan for our son, Peter, is that he is, at present, living in rented accommodation. The houses on either side of him have been sold to the Housing Association with young families living in each of them.

Peter suffers from manic depression and where he is living is not a good environment for somebody with that ailment. Peter helps part time (his only work) on our holding at Bar Lane. He could not hold down full time employment with the condition he suffers from.

If we were granted planning permission, Peter would benefit from this environment.

Yours faithfully

Robert and Patricia Watson
