INFORMATIVE

- 1 A public right of way crosses the site to which this permission relates. The grant of planning permission does not entitle developers to obstruct a public right of way. Development, in so far as it affects a public right of way, should not be started, and the right of way should be kept open for public use, until the necessary order under section 247 or 257 of the Town and Country Planning Act 1990, for the diversion or extinguishment of the right of way, has come into effect. Nor should it be assumed that because planning permission has been granted an order will invariably be made or confirmed. Forms to apply to stop up/divert footpaths/bridleways in order to enable a development granted planning permission to be carried out may be obtained from the Councils' Department of Development Services.

JUSTIFICATION FOR GRANTING CONSENT:

This application was APPROVED contrary to the officer's recommendation on the following basis:

The proposed development is not considered to harm the character and appearance of the open countryside (the site being outside the village development limit) or the rural setting of the village of Hampsthwaite and, in addition the scheme improves highway safety, amenity for neighbours, the line of the PROW and the approach to the village. In reaching this decision the authority have taken account the views of the parish council, relevant planning guidance, the development plan and responses from consultees.
