Sara

I visited this site yesterday and only have minor comments to make:

~ The site is well-screened by existing trees and hedges and, even though the proposed building is higher than the existing ones on the site, I don't feel that it will be intrusive in the AONB landscape.

~ The roof panels must be of a dark colour (dark green or dark grey being the normal options), so as to minimise visual intrusion. Timber boarded walls are acceptable and tone-down in due course with weathering.
