Sally

I know this is way beyond the time limit, but I have the following minor comment to make on the materials for the new entrance:

The kerbing should be concrete Conservation Kerbing, in the Harvest Buff colour, so as to harmonise with the materials of the stone buildings.

(Even if this is too late to do anything with, perhaps you might be able to pass the info on to the applicant, as this conservation kerbing would give a much nicer appearance than the standard concrete kerbing).

Paul
