

Definitive Way Task Group

Notes from the meeting held on 14th September 2007, at County Hall

Attendees:

Rachel Connolly, John Taylor

Apologies:

Other members forwarded apologies.

1. Appointment of Chair:

Rachel Connolly agreed to chair the task group; John Taylor to note-take.

As both members present had also attended the Improving Rights of Way group meeting it was decided to not cover the principles issue again but to endorse the previously mentioned task group's conclusions

Our main debate centred on ensuring that in looking at this vast area of activity we did actually become active in an area of practical value to the LAF.

We therefore sought the advice of Penny Noake who is the NYCC Team Leader for Definitive Maps. She has now very kindly offered to make time if possible to attend our next meeting on 16th November.

The idea is that Penny will be able to point us in a direction of activity beneficial to NYCC as far as Definitive Maps are concerned. This whole area including for example Discovering Lost Ways can if we are not careful involve us in some ultimately pointless effort.

The expert view is we feel important before we start.
With this the meeting was closed.
