# North Yorkshire Police, Fire & Crime Commissioner

Police, Fire and Crime Panel Report

## PFCC report on preferred Chief Fire Officer/Chief Executive Candidate

I am required (by Article 5 of Part 2, Chapter 1 to the Fire and Rescue Authority [Police and Crime Commissioner] (Application of Local Policing Provisions, Inspection, Powers to Trade and Consequential Amendments) Order 2017) to submit, in connection with my appointment of a Chief Fire Officer/Chief Executive, a report to the Police, Fire and Crime Panel for North Yorkshire and the City of York setting out:

- The name of the person I am proposing to appoint to the role ("the candidate");
- The criteria that were used to assess the suitability of the candidate for the appointment;
- Why the candidate satisfies those criteria; and
- The terms and conditions on which the candidate is to be appointed.

### Preferred candidate

My preferred candidate for appointment to the statutory role of Chief Fire Officer/Chief Executive for North Yorkshire Fire and Rescue Service is Andrew Brodie, who is currently the Assistant Chief Fire Officer at Leicestershire Fire and Rescue Service.

### Suitability of the candidate

### Context

Following the announcement of the retirement of the current interim Chief Fire Officer/Chief Executive research was undertaken with the Chairman of the National Fire Chiefs Council, taking cognisance of the independent review provided by Dave Etheridge OBE (former Chief Officer of Oxfordshire Fire and Rescue Service), to develop a new proposed salary for the Chief Fire Officer/Chief Executive. After assessing the Principal Officer structure, proposals have been made by Dave Etheridge on the role and salary for the future structure which deliver both efficiencies and savings for North Yorkshire Fire and Rescue Service. Dave Etheridge's findings for the Chief Fire Officer in North Yorkshire Fire and Rescue Service highlighted that the current Chief Fire Officer in North Yorkshire is one of the highest paid Chief Fire Officers in the UK. After reviewing the national picture and developing the Transform 2020 work, yet to be implemented, there is a very strong case for reducing the pay of the Chief Fire Officer role. Having an interim Chief Fire Officer/Chief Executive in post during this period of change over the next 12 months at the salary proposed would be in line with the proposals set out from work conducted by Dave Etheridge.

Considering Dave Etheridge's report and the wider Transform 2020 programme it was agreed an interim Chief Fire Officer/Chief Executive post would be the most appropriate solution in the short-term. The post was therefore advertised up to 12 months at the salary proposed from the independent review carried out by Dave Etheridge at a reduced rate of £113,605.50 compared to the last permanent Chief Fire Officer/Chief Executive of £155,081.00 (basic salary).

### Criteria used to assess suitability

Andrew Brodie was offered the positon of Chief Fire Officer/Chief Executive for North Yorkshire Fire and Rescue Service on 21 December 2018, following a comprehensive assessment during December 2018.

### How the candidate satisfied the criteria

Andrew Brodie has operated in three fire and rescue services where he has progressed to the role of Assistant Chief Fire Officer. The work Andrew delivers at a national level has also broadened his experience where he has designed and led the structure of National Operational Guidance and managed delivery of two major pieces of guidance. Andrew acts as the Audit Commission National Lead for Fire Policy and through this work has designed and implemented the inspection methodology for Fire and Rescue along with the policy and advice required for the National Lead for Fire Implementation to manage their teams.

Andrew has designed the Value for Money toolkit for fire and rescue services which provided him with a detailed understanding of the model.

There is a clear understanding from Andrew that the transition of the new governance model needs careful management and close, trusting relationships which are well suited to Andrews's personal style and preferences of trust, integrity and accountability.

During the selection process Andrew scored the highest marks for his competency against the role through structured interview questions and a presentation. The interview panel were in agreement that Andrew had the breadth of skills, knowledge and experience to successfully fulfil the role of Chief Fire Officer/Chief Executive.

Andrew's letter of his suitability and CV are attached at Item 5(iii), which set out his employment career, experience to date and how he meets the criteria for the post of Chief Fire Officer/Chief Executive.

### Terms and conditions of service

The Secondment Agreement for the role of Chief Fire Officer between the North Yorkshire Police, Fire and Crime Commissioner Fire and Rescue Authority and Leicester, Leicestershire and Rutland Combined Fire Authority is provided in *draft* at Appendix D in preparation for the confirmation hearing. This agreement is not yet finalised, and the Panel will be kept up date as well as receiving a copy of the final agreement once finalised.

This assessment will be made available to the Police, Fire and Crime Panel should it be requested. It will include an appropriate review of the secondment arrangements to ensure the business requirements are being met and that all parties are happy to proceed with the secondment for a further six months.

### Conclusion

Andrew Brodie is a highly experienced officer who brings a wealth of skills, knowledge and experience to the post of Chief Fire Officer/Chief Executive and I am delighted he applied for this opportunity and is the selected candidate. During the recruitment process in December 2018, and the days that have followed, Andrew has demonstrated a real passion and commitment to the role here in North Yorkshire.

Andrew is fully aware of the challenges the organisation faces and has demonstrated a real ability and understanding as to how to meet these challenges to provide greater efficiencies and effectiveness for North Yorkshire Fire and Rescue Service and North Yorkshire Police. Andrew is clearly an ambitious, innovative and skilled individual who I have confidence will take on the plans which are underway as part of the Transform 2020 programme of work and help drive North Yorkshire Fire and Rescue Service to where it needs to be.

Confirming Andrew as the Chief Fire Officer/Chief Executive for a period of 12 months would provide North Yorkshire Fire and Rescue Service with the right individual to help drive change and support to the wonderful work delivered by the dedicated staff within the Service.

We make decisions at appropriate levels and in appropriate areas, having a clear rationale (for example, use of decision-making models) and accepting responsibility for our decisions. We seek feedback, learn from our mistakes and reflect to improve and amend our future practice. Demonstrating pride in our work is important to us. Our selflessness means that we also seek to help solve issues or problems, which may be internal or external to our own teams. We recognise where limitations in our own knowledge and experience may have an impact on our decision making. We take responsibility for ensuring that support or development is sought to minimise any risks.	Ensuring and improving the safety and wellbeing of the public underpins all of our work. To achieve this most effectively, we need to look beyond our traditional boundaries to think about how to create the best possible outcomes. We build genuine and long-lasting partnerships that focus on collective aims and not just on our own organisation. This goes beyond just working in teams and with colleagues we see daily. It includes building good relationships with other public and third sector providers, reaching out to private organisations and working with our communities and customers. We aim to work effectively with colleagues and external partners, mutually sharing our skills, knowledge and insights with each other to achieve the best possible results for all and to reduce silo working. Our engagement seeks to not only deliver joint solutions but also to share appropriate information and negotiate new ways of providing services together. In all of our dealings with our partners, we make sure that they feel respected and valued.	<ul> <li><b>inspire</b></li> <li>We understand the vision for the organisation. We use our organisation's values in our day-to-day activities as a role model to provide inspiration and clarity to our colleagues and stakeholders. We work to create the right climate for people to get the job done to the best of their abilities, ensuring a culture of mutual respect and support.</li> <li>We are dedicated to working in the public's best interests. We understand how we have an impact on the wider organisation and those around us and we help others to deliver their objectives effectively.</li> <li>This behaviour is not restricted to those who are in formal or senior management positions. We all have a positive contribution to make by operating at our best, adapting how we work to take account of pressures and demands and helping others. We are focused on helping our colleagues to improve and learn and are active in supporting them through activities such as coaching and mentoring.</li> </ul>	We analyse information, data, viewpoints and combine the best available evidence to understand the root causes of issues that arise in complex situations. We draw on our experience, knowledge and wide sources of evidence to give us a greater view of what is happening underneath the surface. We combine insight and evidence-based approaches to help make decisions, accepting that we will not have all the answers but will always try to gather facts and robust information to be able to think tactically and strategically.	open-mindedWe have an inquisitive and outward-looking nature, searching for new information to understand alternative sources of good practice and implement creative working methods. We are committed to reflecting on how we go about our roles, being flexible in our approach as required to ensure the best outcomes.We seek to understand how well we are performing, both as individuals and as teams, and we seek to continuously improve. To do this, we look at relevant standards outside policing in other organisations and sectors.Constantly changing and adapting is part of our role. We maintain an open mind to allow us to identify opportunities and to create innovative solutions.

Why is this competency important?	The way in which we conduct ourselves is just as important as what we do. Communicating and acting politely, respectfully and with compassion helps to drive and maintain public trust. Empathy is particularly important, especially if we are to engage and involve some of the most vulnerable individuals we encounter who may not be able to fully express or articulate their thoughts or feelings. Understanding ourselves means that we are able to improve our own resilience and therefore cope effectively during challenging and emotionally charged situations.	Not all decisions need senior leader approval, meaning that, where necessary, we can respond more swiftly to challenges while still ensuring we provide a full rationale for our response. Because we all face different kinds of challenges that are not always within our comfort zone, every one of us needs to feel confident and able to take responsibility. These behaviours mean that we are empowered, effective and able to learn from our mistakes. Doing so allows us to own and see successes through our delivery of results, and not just whether a particular process has been followed.	Demands on the police come from an increasingly diverse set of sources and the need for services is not defined by organisational and geographical boundaries. We must work together regardless of differing cultures, priorities and needs. This means that we need to influence and negotiate in order to achieve outcomes for everyone and not just focus efforts on our own immediate environment. Working to solve problems without help from our partners ignores the strengths that we can utilise together, but working jointly requires the ability to build relationships and break down barriers. It is critical for us to build and retain our partners' trust and confidence in us and a key part of achieving this is through the way in which we work with others.	To deliver the most effective service, we need to be clear on our goals and priorities, both for the police service and individually. We can all help to support and motivate each other to ensure that we are working as effectively as we can, enabling us and those around us to perform at our best. We should all act as organisational role models.	Critical thinking drives effective policing as we are faced with a wide variety of complex issues on a day-to-day basis. This means that we all need to be able to make sense of a complex environment, accept that ambiguity is part of contemporary working life and, therefore, be able to identify interrelationships between different factors. If we are able to analyse the best available evidence and see what is happening underneath the surface, we will be better able to make confident and effective decisions and implement preventative solutions that deal with root causes.	New and emerging threats mean that our required response will not always be obvious. We will need to adopt new thinking and assumptions, be continually inquisitive and committed to continual improvement. The perpetual need to adapt, innovate and question our assumptions is at the heart of being able to serve and protect the public. It includes taking innovative, preventative action to reduce demand. Being open-minded and reflective also allows us to tailor our approach to specific contexts and the communities we serve.
