**48. Minutes of the meeting of the Scarborough & Whitby Area Committee held on 25 September 2019**

**Resolved -**

That the Minutes of the meeting held on 25 September 2019, having been printed and circulated, be taken as read and confirmed and signed by the Chairman as a correct record.

**49. Declarations of Interest**

There were no declarations of interest.

**50. Public Questions or Statements**

There were no public questions or statements.

**51. Update on Yorkshire Water's Environmental Performance**

Members received a presentation from Paul Carter, Yorkshire Water's Head of Corporate Affairs on Yorkshire Water's environmental performance following the Environment Agency's

## Item 1

last Assessment in 2018 which showed a drop in the Company's performance rating. The presentation confirmed the Company had previously been assessed as good from 2015-2018 with a three-star rating, but had dropped to two stars in 2018 as a result of its poor performance on serious pollution incidents.

Paul Carter detailed the Company's response i.e. entering into a formal escalation for pollution, and the measures taken to mitigate and improve performance e.g.

- Improving their ability to predict and proactively prevent pollution incidents through the installation of monitors in high risk pollution locations;
- Improving the maintenance of pumping stations
- Improving its marketing and communications to raise awareness of the impact of blockages caused by unsuitable materials entering the sewer network;

Whilst Members noted the additional £50m spent on improvement measures, they raised a number of concerns around Yorkshire Water's unfulfilled commitment to improve the quality of bathing water, the effect of new builds on the sewer network, and the lack of Yorkshire Water input on planning applications.

In regard to the quality of bathing water, Paul Carter confirmed that the analysis of samples took place over a four-year period. Whilst the more recent samples had shown a sufficient /good standard, the previous three years were still affecting the average rating. He also confirmed the aging network was struggling with extreme weather events but the Company now had a better understanding of what was happening at key points in the network, and was working to keep rainfall out of the network. In addition, he confirmed:

- Yorkshire Water was not a statutory consultee on planning applications but did have a good working relationship with Planning Departments
- House builders must provide water storage on new housing developments to ensure they do not contribute additional surface water to the network
- 90% Of blockages are caused by non-bio-degradable wet wipes entering the network – Manufacturers were starting to look at improved labelling etc
- Performance had improved in 2019 - the Company met its target of being in the top 25% of Water Companies
- Future challenging targets had been set with the aim of being assessed as a 4\* Company

Finally, in response to a member's question about Yorkshire Water ability to trade water, it was confirmed that the national infrastructure required did not currently exist to move water right across the country, but that Yorkshire Water was able to do so with some of its neighbouring water companies.

Members thanked Paul carter for his attendance and it was:

### **Resolved – That:**

- i. The update be noted
- ii. That a further update on the ongoing improvement works be provided in six months, with an annual performance update provided thereafter.

## 52. Life Expectancy Update

Considered –

A presentation from the Director of Public Health on life expectancy across the constituency area and the contributing factors.

Lincoln Sargeant introduced the report which provided a breakdown of life expectancy data by wards across the constituency area, in line with area of deprivation.

Members noted the variations in life expectancy detailed in the report and the widening gap between Scarborough life expectancy rates and those in both North Yorkshire and England, and expressed concern that local people were not benefitting from gains in health and wellbeing to the same extent as those elsewhere.

Lincoln Sargeant confirmed the Annual Public Health Report for 2019:

- Examined the reasons for that gap e.g. cancers, cardio vascular and respiratory diseases
- Highlighted the four health behaviours that if intervened on, could make a significant difference i.e. smoking, obesity, excess alcohol and sedentary behaviours
- Made recommendations to tackle poverty - a background factor to the four health behaviours

Whilst it was confirmed there was a lot of positive work ongoing across the constituency area to help tackle the four health behaviours, Members agreed that relying on education to persuade people from engaging in them was not sufficient, and that it would require some structural change like the banning of smoking in public buildings to achieve and maintain a sustained reduction.

Finally, Members acknowledged other factors affecting life expectancy e.g. a good education, the quality of housing and job opportunities, and were pleased to note that work was ongoing with Scarborough Borough Council to lead on a strategic approach to tackling the range of factors affecting life expectancy across the area.

Members thanked Lincoln Sargeant for his report and it was

**Resolved –** That the update be noted.

## 53. Trading Standards Update

Considered –

A presentation on the work of Trading Standards to prevent and protect residents from scams and eCrimes.

James McCluskey - Trading Standards Officer, provided a detailed overview of the types of scams and eCrimes being perpetrated across the constituency area which included consumer and retail fraud, subscription traps, advanced fee fraud and phishing, the scale and impact of which had increased nationally as a result of the use of IT.

Members noted there had been 67 reported cases in the constituency area between April 2018 and December 2019, and questioned the ease at which residents could report such crimes.

James McCluskey confirmed there was a national consumer helpline providing a clear mechanism for reporting. He also confirmed work was ongoing to gather intelligence, identify those involved and work with communities to educate residents, and provided examples of enforcement.

Members were encouraged to help with protecting residents in their areas through education and to support those effected.

The Chair thanked James McCluskey for his attendance and it was

**Resolved** – That the update be noted

## 54. Annual Budget Update

Gary Fielding, Corporate Director for Strategic Resources gave a presentation on NYCC's latest financial position, and the ongoing savings requirement and plan. He highlighted:

- The £212m Savings Plan
- The £62m cumulative temporary funding confirmed for 20/21, with future years still to be confirmed
- The planned areas of investment
- The shortfall in Directorate savings of £18.8m
- The planned use of Reserves
- The proposed increase in Council Tax of 3.99% in 2020/21

He went on to focus on the unrelenting demand led pressures in Adult Social Care and Children's Services, and highlighted the specific issues affecting the Scarborough & Whitby constituency area e.g.

- New Inclusion locality hub model reflecting SEND multi-disciplinary teams
- New Scarborough, Whitby, Filey & Ryedale locality board comprising Headteacher representation for school improvement and SEND
- Continued transformation of PRS
- Implementation of new targeted provision (from Sept 20)
- Maintained nursery school supplementary funding
- Transport – policy changes (free and nearer, pick-up from curtilage of the road) + review of solo travellers + independent travel training
- Impact of PSVAR
- Review of Young People's Accommodation Pathway (Oct 21)
- The limited availability of Health & Adult Social Care, particularly in the more rural areas
- The increasing challenge of finding providers willing to accept NYCC's approved rates – currently 36% did not accept NYCC fee rates

Members noted the number of schools in financial difficulties across the area (13%) and the expected increase in the number of schools by March 2022 (53%). They expressed concern that schools might need to look at a programme of redundancies if no additional funding was provided, and agreed the national formula worked less well for schools in rural areas. They acknowledged that schools needed to better understand their financial position and work to identify ways of addressing it.

In regard to HAS, they acknowledged it was a low paid sector which made recruitment and retention more difficult, which again the rural environment did not help. They agreed that stimulating the market would give people more choice and agreed a long term national solution was required.

**Resolved** – That the presentation and update be noted.

### 55. Cycle Strategy Update

Members received a written update on the County Council's approach to cycle path network. As there were no officers present to answer questions, Members were asked to submit them via the Democracy Officer, outside of the formal meeting.

### 56. Scarborough and Whitby Area Constituency Committee Work Programme 2019/20

Considered -

The report of the Assistant Chief Executive (Legal and Democratic Services) asking Members to review the Work Programme, taking into account the outcome of discussions on previous agenda items and any other developments taking place across the area.

Members noted the local MP had yet to attend and the Scrutiny Officer agreed to identify an appropriate meeting date in March, based on the MP's availability.

**Resolved -**

That the Democracy Officer update the work programme to reflect the decisions made during the meeting.

The meeting concluded at 12:50pm

**NORTH YORKSHIRE COUNTY COUNCIL**  
**SCARBOROUGH & WHITBY AREA CONSTITUENCY COMMITTEE**  
**20 MARCH 2020**

**RURAL COMMISSION UPDATE**

**Report of the Assistant Chief Executive (Legal and Democratic Services)**

**1.0 PURPOSE OF THE REPORT**

- 1.1 To update the committee on the work of the Rural Commission, and to initiate a discussion about whether the committee wishes to consider submitting a report as part of the Commission's 'call for evidence'.

**2.0 BACKGROUND**

- 2.1 The Council's Rural Commission was established in October 2019. The purpose and aims of the Rural Commission are as follows:

- Recommend the actions that local partners should take over the next ten, 20 and 30 years in order to maximise the sustainability of the super-sparse rural communities in North Yorkshire.
- Improve the evidence base and arguments that will enable local partners to make the case successfully for increased government support to maximise the sustainability of the super-sparse rural communities in North Yorkshire.

- 2.2 The Commission is an independent group which is self-governing, impartial and non-political. The Commission is not a part of, or aligned to, the County Council or any other partner organisation.

- 2.3 The Rural Commission Panel is made up of 8 independent members and it is chaired by the Very Rev John Dobson DL, Dean of Ripon. The panel is aided in its work by a reference group of key stakeholders. This includes: the leaders of the district councils in North Yorkshire; the two national park authorities in the county; and North Yorkshire and East Riding Local Enterprise Partnership.

**3.0 RURAL COMMISSION WORK PROGRAMME**

- 3.1 The work programme of the Commission is extensive and wide ranging. The Commission agreed in their inaugural meeting that they would tackle the main part of the task on a theme-by-theme basis. The Commission also recognised the interplay between the themes and acknowledged a number of additional cross-cutting themes, largely but not exclusively linked to the wider socio-economic and material environment and the distinctive demographic characteristics evident in North Yorkshire.

- 3.2 The themes to be examined in-depth are:

- Farming and Food
- Economy and Jobs
- Housing
- Education, Schools and Training

- Transport
- Accessibility - Digital Broadband and Mobile
- Energy and Environment

3.3 The overall approach developed by the Commission includes a programme of evidence sessions; a separate public call for written evidence from people and organisations who would like to submit written material to support the work of the Commission; a programme of external visits across the county that will allow Commissioners to explore and observe the lived reality of people from the most rural communities in North Yorkshire; and additional appointments with MPs as part of a programme of engagement with key political figures and central government officials.

#### 4.0 DATA & ANALYSIS

4.1 One key feature of the work of the Commission is to assemble and interrogate a wide range of data and intelligence that will make up the evidence base and underpin the conclusions and recommendations made by the Commission. The main source of information for the evidence base will originate and grow from the core work programme set out above, including a schedule of evidence sessions, the call for evidence, a programme of visits and additional rounds of engagement.

4.2 The Commission is supported in its work by a secretariat of County Council officers, who help to organise the various meetings of the Commission and manage the communications and media that is generated from the work of the Commission. The secretariat also supports the Commission to bring together and organise the evidence base and to help with the collation of the extensive information that is made available to the Commission – but not with the interrogation or the analysis of the data, which is the responsibility of the Commissioners.

#### 5.0 PROGRESS TO DATE

5.1 The evidence sessions have been scheduled to run monthly from December 2019 up until June 2020 (see table below). Each evidence session includes discussions with small groups of participants and the Commission, which includes introductory presentations from contributors and a question-led discussion which is overseen by the Chair of the Commission. The main focus of the debate at the evidence sessions is centred on the critical issues and challenges identified by the participants and any ideas and thinking from the participants about the best ways the Commission might wish to tackle the problems they have raised.

<b>Programme of planned evidence sessions of the Rural Commission</b>	
<b>Date</b>	<b>Evidence Session</b>
18 <sup>th</sup> December 2019	Farming and Food
23 <sup>rd</sup> January 2020	Economy and Jobs
26 <sup>th</sup> February 2020	Housing
26 <sup>th</sup> March 2020	Education, Schools and Training
22 <sup>nd</sup> April 2020	Transport
20 <sup>th</sup> May 2020	Accessibility – Digital Broadband and Mobile
17 <sup>th</sup> June 2020	Energy & Environment

5.2 The three evidence sessions held to date and heard from 26 participants speaking on issues affecting farming and food, the rural economy and jobs, and rural housing. During this time the Commission has recorded eight hours of audio from these sessions and

generated more than 10,000 words of key notes from conversations with participants. The Commission has engaged with 18 different organisations and received 14 separate written submissions from individuals and agencies who have responded to the call for evidence. Many other reports have also been made available to the Commission, in order to inform thinking, including academic research papers, government reports or government commissioned research, and scientific reports on specific topics.

### 5.3 Involvement of County Councillors & Others

County Councillors can be actively involved in the work of the Rural Commission in a number of ways. They can suggest the topics they would like to see debated by the Commission, under the agreed themes, and inform the Commission about the key challenges in their local areas (some County Councillors have already started to do this). It would also be helpful if County Councillors could encourage local people, businesses and organisations with views and practical ideas about the issues that affect our most rural communities to contact the Commission directly.

5.4 Written submissions on any issue can be sent by email at any time up until May 2020, to: [ruralcommission@northyorks.gov.uk](mailto:ruralcommission@northyorks.gov.uk) .

5.5 Further information on the work of the Rural Commission is available via the following link - <https://www.northyorks.gov.uk/north-yorkshire-rural-commission>

## **REPORTING LINES**

6.1 The Commission provides updates on its progress and achievements to a Reference Group that was set up to encourage and counsel the Commission, and to act as a sounding board for the Commission, but the Commission is not accountable to the Reference Group. The Reference Group is chaired by the Leader of the County Council and includes the Leaders of the District Councils, the Chairs of the National Park Authorities, and Chair of the Local Enterprise Partnership.

6.2 The report of the Commission will be presented to the County Council, and it is intended that the key findings and recommendations considered by Executive members and by the Overview and Scrutiny Committees

## **7.0 OUTCOMES & OUTPUT**

7.1 The recommendations of the Rural Commission will be informed by the wide ranging and extensive evidence base assembled by the Commission. All of the evidence that is submitted to the Commission will be made available to the public.

7.2 The main output will be a report of key findings and recommendations, to be published in Autumn 2020. The report will summarise the results of the work of the Commission, their conclusions, and perhaps most importantly, it will set out the Commission's recommendations about the actions that local partners should take over the next ten, twenty and thirty years, in order to maximise the sustainability and future prosperity of the most rural communities in North Yorkshire.

## **8.0 IMPLICATIONS**

8.1 There are no financial, legal or equalities implications associated with the recommendation in this report.

**9.0 RECOMMENDATION**

- 9.1 To have a discussion about whether the committee wishes to consider submitting a report as part of the Commission's 'call for evidence'.
