Additional/Emerging Areas of Involvement

National Review of Congenital Heart Surgery (Adults and Children)

On 12 June 2013 the Secretary of State for Health announced in parliament that the safe and sustainable proposals for Children's Congenital Heart Services could not go ahead in their current form. Under the proposals children's cardiac surgery at Leeds General Infirmary would have stopped. NHS England, the body responsible for commissioning specialised congenital heart services, are now taking forward the process to cover services for adults and children. NHS England has announced that by June 2014 they will have a plan for an implementable solution. As yet it is unclear how scrutiny committees will be involved in the process of developing a solution or in any formal consultation that would follow after June next year.

Mid Wife-led Maternity Unit at Scarborough Hospital

The Unit has been temporarily closed to allow upgrades to the maternity operating theatres.

Quality Accounts

It is anticipated that during the autumn of 2013 and the early part of 2014 all NHS trusts serving North Yorkshire will be inviting the Committee to comment on the priorities to be included in their Quality Account for 2013/14.

New GP Contract (Incl. Impact of withdrawal of GP Minimum Income Guarantee)

The Committee will receive regular updates as the developments unfold.
