2021/22 Information Governance Strategic Objectives

4 The following strategy objectives will be delivered by Veritau in 2021/22.

Information Asset Management

- As part of the work on developing the Council's information asset register a comprehensive list of other data controllers who may receive data from the Council has been compiled. Veritau will work with service managers to ensure that data sharing arrangements are formalised through information sharing agreements as per the requirements of the North Yorkshire Information Sharing Protocol, which the Council is a signatory to.
- A process map detailing how this work will be undertaken can be found in Appendix 1 of this report.

Law Enforcement

Veritau will continue to review all law enforcement activity for the collection of personal information to ensure all detail has been captured as part of the information asset register and that privacy notices are updated.

Privacy Notice Review

8 Having conducted a review in 2020/21, Veritau will ensure that all privacy notices are now updated.

2021/22 Information Governance Training Provision

9 The following information governance themes will be covered by specific Veritau delivered training in 2021/22:

Data Protection Impact Assessments

Delegates will be introduced to the concept of data protection impact assessments, a now mandatory tool to identify risk, including their purpose and the various aspects that need to be included. The delegates will work through an example DPIA which will provide the opportunity to learn how to complete a DPIA and ask any relevant questions.

Law Enforcement

11 Delegates will be introduced to part three of the Data Protection Act 2018. This will help develop an understanding of the key differences between law enforcement and UK-GDPR and their obligations.

The following additional information governance themes will be available to Selby District Council to book if required in 2021/22:

Records Management

Delegates will be introduced to Records Management concepts and tools including: the Records Lifecycle, benefits of Records Management, file plans, email management, retention and Information Asset Registers.

Data Protection Rights and Principles

Delegates will have the data protection principles explained in detail and will be introduced to specific rights that service users have in relation to their personal data. This workshop will give delegates practical knowledge which can be applied to their day-to-day work.
