

## Agenda

**Meeting: Skipton and Ripon Area Constituency Committee**

**Venue: Town Hall, Skipton, North Yorkshire, BD23 1AH**

**Date: 1pm to 3pm on Friday 31 August 2018**

### Business

*Recording is allowed at County Council, committee and sub-committee meetings which are open to the public, please give due regard to the Council's protocol on audio/visual recording and photography at public meetings, a copy of which is available to download below. Anyone wishing to record is asked to contact, prior to the start of the meeting, the Officer whose details are at the foot of the first page of the Agenda. We ask that any recording is clearly visible to anyone at the meeting and that it is non-disruptive. <http://democracy.northyorks.gov.uk/>*

- 1. Welcome by the Chairman, introductions and apologies**
- 2. Minutes of the meeting of the Skipton and Ripon Area Constituency Committee held on 31 May 2018**  
(Pages 5 to 12)
- 3. Any Declarations of Interest**
- 4. Public Questions or Statements**

Members of the public may ask questions or make statements at this meeting if they have given notice and provided the text to Daniel Harry of Democratic Services (*contact details below*) no later than midday on Tuesday 29 May 2018. Each speaker should limit themselves to 3 minutes on any item. Members of the public who have given notice will be invited to speak:-

- at this point in the meeting if their questions/statements relate to matters which are not otherwise on the Agenda (subject to an overall time limit of 30 minutes);
- when the relevant Agenda item is being considered if they wish to speak on a matter which is on the Agenda for this meeting.

If you are exercising your right to speak at this meeting, but do not wish to be recorded, please inform the Chairman who will instruct those taking a recording to cease whilst you speak.

5. **Appointments to outside bodies (Gouthwaite Reservoir Board of Management)** - report by the Democratic Services and Scrutiny Manager, NYCC  
(Page 13)
6. **A59 Kex Gill alignment update** – briefing paper by the Corporate Director of Business and Environmental Services, NYCC  
(Pages 14 to 15)
7. **Castleberg Community Hospital, Giggleswick update** – briefing paper by the Democratic Services and Scrutiny Manager, NYCC  
(Pages 16 to 17)
8. **Committee work programme** – report by the Democratic Services and Scrutiny Manager, NYCC  
(Pages 18 to 21)
9. **Adult social care funding, the Green Paper and fairer funding for local government**– report by the Corporate Director of Health and Adult Services, NYCC – TO FOLLOW  
(Pages 22 onwards)
10. **Other business which the Chairman agrees should be considered as a matter of urgency because of special circumstances.**

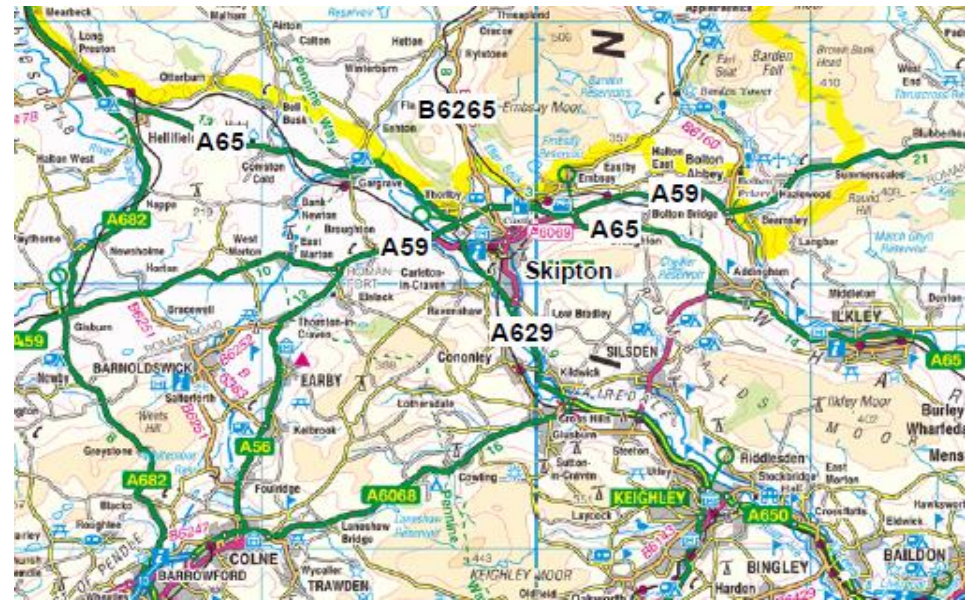

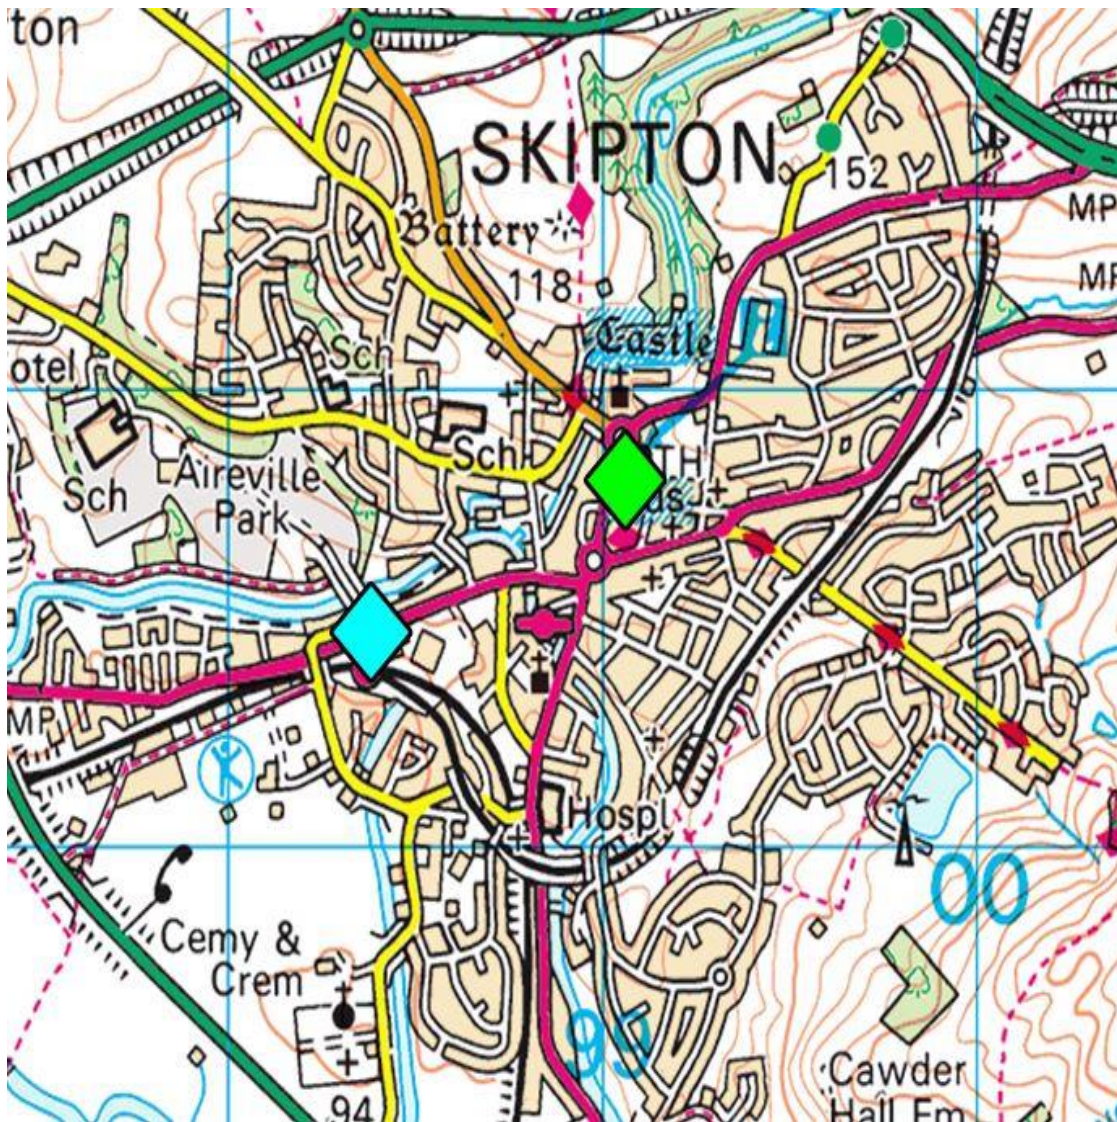

Barry Khan  
Assistant Chief Executive (Legal and Democratic Services)  
County Hall  
Northallerton

21 August 2018.

## North Yorkshire County Council

### Skipton and Ripon Area Constituency Committee

Minutes of the meeting of the Skipton and Ripon Area Constituency Committee held on 31 May 2018, commencing at 10.00 am, at Bolton Abbey Village Hall.

**Present:-**

County Councillors Margaret Atkinson, Mike Chambers MBE, Robert Heseltine, David Ireton, Stanley Lumley, Stuart Martin MBE, Patrick Mulligan, Andy Solloway, Richard Welch and Robert Windass.

Officers: Daniel Harry (Democratic Services and Scrutiny Manager), Alice Gill (Business Support), James Malcolm (Highways)

There were members of the public present.

Apologies for absence were received from County Councillors Michael Harrison, Gillian Quinn and Philip Barrett

#### 1. Appointment of Chairman

Daniel Harry, the Democratic Services and Scrutiny Manager for North Yorkshire County Council welcomed everyone to the first meeting of the Skipton and Ripon Area Constituency Committee. Daniel Harry stated that as this was the first meeting the first item of business would be the election of a Chairman. Daniel Harry requested whether there were any nominations for Chair of the Committee. Councillor David Ireton nominated Councillor Richard Welch to the Chairman. This was seconded by Councillor Patrick Mulligan. Councillor Richard Welch was unanimously elected to be the Chair of the Skipton and Ripon Area Constituency Committee for the next 12 months.

**Resolved –**

That County Councillor Richard Welch be appointed Chairman, to serve for the next 12 months.

---

**County Councillor Richard Welch in the Chair**

---

**Copies of all documents considered are in the Minute Book**

---

#### 2. Minutes of the Craven Area Committee Meeting held on 8 February 2018

Councillor Richard Welch stated that the Minutes of the Area Committee would need to be noted and that any outstanding items from the Area Committee could be picked up as part of the discussions around the Work Programme for the Area Constituency Committee that was later on in the agenda.

**Resolved -**

That the Minutes of the Craven Area Committee meeting held on 8 February 2018, having been printed and circulated, be taken as read and confirmed and signed by the Chairman as a correct record.

**3. Appointment of Vice Chairman**

Councillor Richard Welch asked for nominations for the Vice Chairman of the Committee to serve for a period of 12 months. Councillor Patrick Mulligan nominated Councillor Mike Chambers MBE and this was seconded by Councillor Margaret Atkinson. Councillor Mike Chambers were unanimously voted to be the Vice Chairman of the Committee.

**Resolved -**

That County Councillor Mike Chambers MBE be appointed Vice Chairman, to serve for the next 12 months.

**4. Any Declarations of Interest**

There were no declarations of interest.

**5. Public Questions or Statements**

There were no public questions or statements.

**6. Business relating to the Craven Area Committee that needs to be addressed at this meeting**

**Petition**

Daniel Harry introduced the item noting that whilst the Area Committee for Craven no longer existed there was an item relating to a petition about winter gritting in Rockwood Drive and surrounding cul-de-sacs in Skipton, North Yorkshire. Councillor Andy Solloway then proceeded to introduce Kathryn Harrison, who had submitted the petition.

Kathryn Harrison handed around to the Committee Members copies of those letters of support that had been received regarding the petition and also photographs that illustrated the nature of the road area during the winter months. She said that 323 people had signed the petition and that a request was being made for upgrade from a Priority 3 to a Priority 2 route to commence from winter 2018. If the request for an upgrade is not granted then Kathryn Harrison requested that reasons be given as to why this was not suitable.

Councillor Richard Welch expressed his thanks to Kathryn Harrison and the local residents that she represented for all of the hard work that they had put in to gather together the petition, letters of support, photographs and other evidence that had been brought forward to the Committee. Councillor Richard Welch then invited the representative of the North Yorkshire County Council Highways Service, James Malcolm, to respond to the petition.

James Malcolm explained that every September the winter gritting routes are considered by the Highways Service at North Yorkshire County Council. Ahead of this meeting all County Councillors are informed that they have an opportunity to provide evidence supporting changes to the priorities for winter gritting. Once these have all

been received they are then considered in the round. James Malcolm noted that North Yorkshire is the most gritted county in England.

James Malcolm explained that there was limited capacity to change the scheduling due to financial restrictions and also the complexity of arranging multiple routes over a county like North Yorkshire. In effect what this would mean is that if one route goes on another route must come off.

Councillor Patrick Mulligan queried what were the differences between Priority 1, 2 and 3 routes. He said that there would be very difficult choices to be made as to why some routes were gritted and some were not. He noted that there were a number of routes in his area that were of concern and which he would like to have looked at again. Councillor Patrick Mulligan said that people could travel by routes that were gritted but acknowledged that this may add time to their journey.

Councillor Robert Heseltine stated that there was a need for the Committee to recognise the strength of the argument that had been put forward by Kathryn Harrison and the people who had completed the petition. He requested that the Committee make formal representations to the Executive Member for Highways highlighting the need for further funding to be committed to winter gritting.

Councillor Mike Chambers said that whilst he had a great deal of sympathy for the residents of Rockwood Drive and the cul-de-sacs leading off of it he was concerned about setting a precedent. He said that there was a need to be even handed and consider each route as part of the existing process undertaken by the Highways Services in September of each year.

Councillor Patrick Mulligan recognised that the case put forward by the petitioners was strong. He said that he had confidence that the Highways Service would take on the evidence that had been presented and review the case and the request for the change in priority alongside other requests made in September.

County Councillor Carl Les reminded Committee Members that every County Councillor receives a letter ahead of the September meeting which enables them to provide the necessary evidence to support the nomination of new routes for gritting or re-prioritisation of existing routes.

Councillor Carl Les supported the proposal to make formal representations to the Executive Member and also to the Corporate Director - Business and Environmental Services. Councillor Carl Les noted that the budget for winter gritting had been protected for the past seven years which was unlike the vast majority of other Council budgets that had faced reductions or cuts.

Councillor Carl Les stated his belief that petitions were an extremely valuable and powerful tool for the Area Constituency Committees and the County Council as a whole. He noted that the existing criteria for a petition to go to the Area Constituency Committee is that the number of people who had signed the petition exceeded 1% of the population covered by the Committee. When it was the Craven Area Committee this amounted to 555 people. Under the new geography for the Skipton and Ripon Area Constituency Committee this amount to about 1,000 people. Councillor Carl Les felt that this limit of 1,000 was too high and would discourage petitions and so he was considering lowering the limit for petitions to be considered by Area Constituency Committees to 500 signatories. This would be discussed at the first meeting of the Chairs and Vice Chairs for the Area Constituency Committees in the county.

## **Resolved -**

- (i) That the Chairman write to the Executive Member for Highways and to David Bowe, the Corporate Director - Business and Environmental Services to highlight the petition that had been raised for a change in the priority for winter gritting on Rockwood Drive and all the cul-de-sacs leading off of it.
- (ii) Request that David Bowe attend the next quarterly Highways Area 5 meeting where in general winter gritting prioritisation for the area could be discussed with Members in more depth.

Councillor Stanley Lumley stated that the committee area was now covered by Highways Area 5 and 6.

Councillor Patrick Mulligan acknowledged that the discussion had been useful and productive but that the petition related to old business or legacy matters arising from the Craven Area Committee. He now looked forward to moving forwards with the Skipton and Ripon Area Constituency Committee and other items on the agenda about how the new Committee would work.

Councillor Robert Heseltine formally thanked the Chairman for his positive response to the petition.

## **Report - Coniston Aire Causeway**

Councillor Richard Welch asked James Malcolm to present the report on the feasibility study for changes to the Coniston Aire Causeway.

James Malcolm referred Committee Members to the study that had previously been circulated with the papers. He noted that the cheapest option that was being considered was for traffic signals but this had been ruled out early on because of the impact this would have upon traffic flows. The options then became ones of widening the existing causeway or creating a new causeway. James Malcolm stated that these were the only two practical options being considered at this stage and asked that Members discuss and feedback their views.

Councillor Robert Heseltine expressed his support for Option 5 in the report which was the construction of a multi-span causeway with an estimated cost of £9.5m. Councillor Richard Welch also expressed his support for Option 5 and stated that he was glad that the traffic lights solution had been ruled out.

Councillor Patrick Mulligan stated his support for Option 5 but queried where the money would come from. He expressed his concerns that the proposal for the new causeway would not pass the economic benefit test.

In response, James Malcolm said that a cost benefit analysis would be undertaken to see whether the expenditure could be justified.

Councillor Carl Les suggested that it would be helpful if the Committee could write to him as Leader of the Council and provide supporting evidence as part of a bidding process to Transport for the North and Highways England.

Councillor David Ireton noted his support for Option 5.

The Committee resolved to formally support Option 5 in the proposal document, that being the construction of a multi-span causeway with an estimated cost of £9.5m.

Councillor Richard Welch then asked James Malcolm to comment on the recent closure of the A59 following damage to the road in the Kex Gill area.

James Malcolm informed the Committee that in the previous evening a tear in the road had been reported and that this issue was currently being investigated. He noted that Members would be aware that an alternative route around that area was under consultation but that any new route would not be available for 2 to 3 years and so not help with the immediate problems surrounding the A59.

Councillor Stanley Lumley noted that improvements to the A59 around Kex Gill needed to progress as this was a key east-west route supporting both business growth and tourism in the local area.

## **7. Area Constituency Committees A Suggested Way Forward**

Considered -

The report of the Assistant Chief Executive (Legal and Democratic Services) appending a guide to the report outlining how the new committee could work. Members are asked to review the report and decide what approaches best fit for them.

Daniel Harry introduced the report stating that this was officer advice and guidance for the Members of the Committee. He suggested that there were a number of issues that it would be helpful to resolve early on that might help free up the agenda of the Committees to concentrate on a small number of substantive items for review and scrutiny during the year. Daniel Harry suggested that based on four Committee meetings a year the Committee would have on average between 10 and 12 hours' worth of business time per annum in which to work.

Daniel Harry suggested that Members might wish to consider whether co-option was appropriate. He said that co-option was usually most effective when a Committee had a tight focus on a specific area of work or theme and co-opted members were specialists who could bring their technical knowledge to bear on a regular basis in discussion. He said, however, that the Area Constituency Committee was not a specialist committee but one that looks at an area in the round, picking up a range of issues that would vary throughout the year. As such, it would be difficult to find someone with specific specialist knowledge that they could apply throughout the course of all the year's meetings. Daniel Harry suggested, therefore, that Members consider not co-opting any additional members onto the Committee.

In response, Councillor Robert Heseltine noted that the Committee now covered a large area and that if they went the route of co-option then the Committee could become unwieldy with very large numbers of people present. Whilst he suggested not co-opting additional members, Councillor Heseltine asked that the position be reconsidered in 12 months.

Councillor Stanley Lumley stated that a good County Councillor knows the local issues in their local area and would have strong working relationships with Parish Councillors and other community groups. As such, this information could be brought to bear at any of the meetings without the need to formally co-opt people.

Councillor Stuart Martin said that it was important that the Committee kept on the front foot and had the flexibility to invite specialists in as and when required.

Councillor Andy Solloway said that in the past Parish Council involvement in the work of the Area Committees had always been useful and that he would be reluctant to see the link lost.

In response, Daniel Harry stated that the links with Parish Councils need not be lost and that there were many routes by which their information and local knowledge could be brought in, not least of which through public questions and statements.

Councillor Richard Welch, in summing up, stated that the Committee appeared to agree that there was no need at this stage to formally co-opt any additional Members to the Committee but that this should be reviewed in 12 months.

Daniel Harry referring back to the report asked Members whether they wish to continue to receive regular updates and agenda items from the Police, Fire and other organisations.

Daniel Harry suggested that, based upon a review of the seven Area Committees, these regular updates were often highly localised and used up a lot of time on the agenda. He proposed that instead of them being formal agenda updates, they could be received as part of the papers to note. Also, that once a year a formal session could be held on place or community safety.

Councillor Robert Heseltine stated that he would welcome a quarterly report from both Police and Fire but did not see a need for them to attend unless there was a specific issue of concern that affected the Committee as a whole. He supported the suggestion for an annual session on place or safety.

Councillor Robert Heseltine stated that the Area Committees themselves had grown out of Area Highway Committees and that it was important to have highways updates on a regular basis and a standing item on the agenda for highways matters.

In response Daniel Harry stated that there was no intention to sever the link with Highways and that highways issues would be important for all of the Area Constituency Committees. He suggested that it was a case of working out how highways issues could best be dealt with in particular very localised highways issues that were relevant to only a very small area of that covered by the Committee.

Councillor Patrick Mulligan said that the Area Constituency Committees were new and were still finding their way but were very different from the Area Committees that preceded them. As such, it would be helpful to try and explore other ways to deal with local highways issues such as either a meeting prior to the main meeting of the Area Constituency Committee or subsequent to the meeting.

Councillor Margaret Atkinson supported the idea of a highways drop-in session prior to the meeting.

James Malcolm stated that there are many existing mechanisms by which very local highways issues can be reported and acted upon and as such he would not seek to encourage reporting through the Area Constituency Committee as this would undermine the existing mechanisms that had been put in place.

Councillor David Chance said that in some of the Area Committees very minor highways issues had bogged down the agenda and prevented them from focusing in on bigger strategic issues on which they could have had an impact.

Councillor Robert Heseltine said that the report indicated that the Leader of the Council was considering devolving greater powers down to the Area Constituency Committees, should they demonstrate in the first year that they were working effectively. He questioned how effective working would be measured.

Councillor Richard Welch summed up the discussions at this point of the Committee meeting. The Committee resolved to receive a quarterly report from the Police and

Fire and Rescue Service updating on key issues in their local area. This report to be published as part of the Committee papers but marked as to note only.

## **8. Skipton and Ripon Area Constituency Committee Area Profile**

Considered -

Daniel Harry introduced the area profile for Skipton and Ripon. He noted that it was a very detailed report and hoped that Members had had the opportunity to go through it. The intention of the report was to introduce Members to their new area and also to begin to identify areas of interest for inclusion in the Committee's Work Programme.

Daniel Harry gave an overview of some of the key issues that he had identified in the area profile as follows:

- Central heating, energy efficiency of housing stock, insulation of houses and fuel poverty possibly linked to income deprivation
- Employment opportunities and progression from school to career. Including, how small businesses are supported and enabled to develop into larger businesses
- Income deprivation and where this occurs in an otherwise affluent area and what may be done to tackle it
- Child wellbeing linked to the environment possibly including access to green space particularly in built up areas
- Alcohol misuse and further work being done to understand whether this is a significant problem in the area or not
- Digital services and broadband download speeds and what is being done to improve them
- Funding and access to a range of alternative funding streams such as the National Lottery and why this seems lower in the area when compared to others
- Primary schools and the quality of teaching and educational outcomes from smaller schools.

Councillor Richard Welch thanked Daniel Harry for the report and noted that it was extremely detailed and may merit further in-depth consideration by Committee Members.

**Resolved -**

That the report be noted.

## **9. Skipton and Ripon Area Constituency Committee Work Programme**

Considered -

The report of the Assistant Chief Executive (Legal and Democratic Services) asking the Committee to review the draft Work Programme, taking into account the outcome of discussions on previous agenda items and any other developments taking place across the area.

Daniel Harry introduced the report stating that it was preferable for a Committee to have a clearly defined Work Programme for the next 12 to 18 months outlining what it will be doing.

Daniel Harry asked Committee Members to consider what items either from the Area Profile or from the previous Area Committee would be relevant for the new Area Constituency Committee to consider as part of its Work Programme. He requested

that any suggestions be sent through to himself and the Chairman Richard Welch for consideration.

Councillor Robert Heseltine said that educational issues were important in the area in particular the viability of some secondary schools in the long term.

Councillor Andy Solloway said that it was important that the Committee was able to have sight of the Adult Social Care Agenda and the expenditure on services in their local area.

Councillor Carl Les suggested that the Committee may wish to consider looking at the Adult Social Care Green Paper and that this might be relevant for discussion with the local MP at a future meeting of the Committee. He said that Julian Smith had already expressed his intention to attend.

Daniel Harry said that it could be possible to invite the MP to the next meeting of the Committee, which was scheduled for September.

Councillor Patrick Mulligan welcomed the attendance of the MP and stated that this would provide increasing leverage for the Committee in terms of escalating local matters of importance both to the County Council and the Committee. Councillor Patrick Mulligan went on to say that he welcomed an item on schools and recognised that there were questions about the sustainability of Skipton Academy in the area. He noted that there was a meeting planned for the end of June to address school based issues in the Craven area which would be attended by the Regional Schools Commissioner. The Regional Schools Commissioner has responsibilities for academies.

Councillor Patrick Mulligan also welcomed a discussion about the long term sustainability of rural primary schools particularly those with 50 or less pupils. He stated it would be helpful to have this on the agenda for the meeting with the MP. It is important because it is linked with a broader issue around the long term sustainability of rural communities.

Councillor Richard Welch asked Members where the subsequent meetings of the Committee should be held.

Councillor Stuart Martin said that the venue should be dictated by what is on the agenda.

**10. Other business which the Chairman agrees should be considered as a matter of urgency because of special circumstances**

Councillor Richard Welch stated that the Lord Lieutenant for North Yorkshire, Barry Dodd CBE, had recently been killed in a helicopter crash. He expressed his sympathy for Barry Dodd's family and noted the huge impact that it had upon the provision and development of services in North Yorkshire.

The meeting concluded at 12.30 pm

DH

**North Yorkshire County Council  
Skipton and Ripon Area Constituency Committee  
31 August 2018**

**Appointment to Vacancy on Outside Body - Gouthwaite Reservoir Board of Management**

**1.0 Purpose of the Report**

- 1.1 To invite the Committee to appoint to a vacancy for the County Council's representative on the Gouthwaite Reservoir Board of Management.

**2.0 Vacancy**

- 2.1 The County Council appoints three representatives to the Gouthwaite Reservoir Board of Management. One position is currently held by County Councillor Stanley Lumley and one by Mr David Gotto of Blazefield. One position became vacant when Nicola Wilson resigned from North Yorkshire County Council. This Committee is authorised to appoint to the vacant position.
- 2.2 The County Council's Constitution states that the County Council's representative is expected to be a member of the local community but may be an Elected Member representing the local area.

**3.0 Nominations**

- 3.1 In the event that two or more nominations are put before today's meeting, a ballot will be held.

**4.0 Recommendation**

- 4.1 That the person to be nominated, and is successful in any ballot, at today's meeting be appointed to the vacancy for the County Council's representative on the Gouthwaite Reservoir Board of Management, to serve until a replacement is appointed.

21 August 2018

**North Yorkshire County Council  
Skipton and Ripon Area Constituency Committee - 31 August 2018  
A59 Kex Gill realignment**

**1.0 Purpose of the Report**

- 1.1 To update the committee on progress with the Kex Gill realignment scheme.

**2.0 Update**

- 2.1 Work on the Kex Gill realignment scheme is continuing and progressing in line with the programme.
- 2.2 The Executive approved the proposed preferred alignment for the scheme at its meeting on 24 July 2018, meaning that the route is now a formally adopted route of the County Council, and is declarable on legal land charge searches.
- 2.3 A local public consultation event was held at the end of June, in advance of the report to Executive being drafted. The event, which was held at Norwood Social Hall in the Washburn Parish and which also provided materials and the opportunity to comment online, was well attended and effective. Over 200 people attended the event, and a further 37 supplied written comments, either by letter or email.
- 2.4 The scheme proposals received a high level of support, with the need for intervention (i.e., realigning the A59 and reducing the frequency of road closures) being a strong theme.
- 2.5 In general, the proposed preferred option for realignment was well supported and understood, although there was some level of disappointment at the omission of Kex Gill Farm corner from the scheme. However, there was similarly a level of understanding that to improve the geometry of the road at that point, and therefore to impact on the legally protected landscape in that area would be a high risk to the overall deliverability of the project.
- 2.6 Comments received through the consultation could be grouped generally into the following themes:
- The environmental importance of the area and the need to preserve environmental assets
  - The importance of the rights of way (ROW) network and the requirement to ensure connectivity and coherence of that network
  - The need to ensure that the landscape, visual and noise impacts of the scheme are adequately managed and mitigated

- Support for the proposed new arrangement of the junction at Hall Lane / A59 / Church Hill, in recognition of the current poor arrangement and accident record.
- 2.7 As the preferred route for the scheme has now been adopted by the county council, work can commence on the detailed design of the scheme. This will allow further refinement of costs and risk.
- 2.8 It will also allow detailed negotiation with landowners and stakeholders to commence, with a view to acquiring land through negotiation and avoiding the need for compulsory purchase order (CPO) and the consequent risk of a public inquiry.
- 2.9 Should a public inquiry be called (as a consequence of a statutory objection to a planning application, or an objection to any CPO) this could add around 12 months to the delivery programme for the scheme. Therefore officers are keen to manage this risk as proactively as possible.
- 2.10 Officers continue to seek a meeting with Department for Transport officials, at which the outline business case prepared for the scheme can be discussed in detail with DfT analysts.

### **3.0 Recommendation**

- 3.1 That regular updates are brought to the committee.

Author:  
Rebecca Gibson  
Transport Planning  
Business and Environmental Services  
North Yorkshire County Council  
21 August 2018

**North Yorkshire County Council  
Skipton and Ripon Area Constituency Committee - 31 August 2018  
Castleberg Community Hospital, Giggleswick – update**

**1.0 Purpose of the Report**

- 1.1 To update the committee on progress with the Castleberg Community Hospital at Giggleswick and identify any lines of enquiry for the committee to pursue.

**2.0 Background**

2.1 The Castleberg Community Hospital in Giggleswick was unexpectedly closed in April 2017 due to patient safety concerns, relating to the structure of the building. Following this temporary closure, Airedale Wharfedale and Craven Clinical Commissioning Group considered future options. One, to build a new development, was ruled out on affordability grounds. The remaining two options were subject to public consultation, as below:

- Option One - continue to provide inpatient care in the community and repair/reopen Castleberg Hospital
- Option Two - provide care in people's homes or in an alternative community setting (determined by need), and close Castleberg Hospital.

2.2 On the 8 May 2018 the governing body of the Airedale Wharfedale and Craven CCG decided to support the proposal that the Castleberg hospital be re-opened once repairs had been undertaken. Also included was the recommendation that the Castleberg is developed as a community based facility with options for a broader range of support services particularly the voluntary sector.

**3.0 Progress with the development of the Castleberg Community Hospital**

3.1 An operational mobilisation group has been established by the CCG and NHS property Services to oversee the necessary work and the recommencement of service provision at the hospital. This includes the providers of the service.

3.2 NHS Property Services have arranged for the property to be re-surveyed to assess the current state and what works are required. The hope had been that all necessary remedial works could be completed and services provided from the site by 1 December 2018. This now looks unlikely and may be delayed until the New Year.

3.3 NHS Property Services are meeting with the service provider to see if space on the ground floor of the hospital could be freed up for alternative use by volunteers/VCS taking a community asset based approach. It is likely that there will be space on the first floor which could be utilised but the costs of installing a lift have proved to be prohibitive so it is unlikely that this could be accommodated.

3.4 The service provider is currently recruiting staff and preparing to mobilise at the earliest opportunity pending completion of the necessary remedial work.

#### **4.0 Overview and scrutiny**

4.1 The North Yorkshire County Council Scrutiny of Health Committee has requested that the Skipton and Ripon Area Constituency Committee takes on the lead responsibility for the scrutiny of the implementation of the plans for the delivery of services at the Castleberg Community Hospital. The Area Constituency Committee is in a unique position to assess the local impact and long term sustainability of the services that are being put in place and then make any necessary recommendations to the Scrutiny of Health Committee.

#### **5.0 Lines of enquiry**

5.1 There are a number of lines of enquiry that the committee may wish to consider as part of the development of a more in-depth piece of scrutiny work on the implementation of the plans for the delivery of services at the Castleberg Community Hospital, including:

- When will the hospital re-open?
- What health, social care and mental health services will be provided?
- What will the links be with primary care (GPs)?
- What role does the County Council and the District Council have to play?
- What will the links be with the voluntary and community sector?
- Is there a model that could be applied elsewhere in the area of the county?
- What lessons have been learnt?

#### **6.0 Recommendations**

6.1 That the committee takes on the lead responsibility for the scrutiny of the implementation of the plans for the delivery of services at the Castleberg Community Hospital.

6.2 That the committee identifies some specific lines of enquiry to follow up at its next meeting.

Committee Work Programme**

**Purpose of Report**

That Members review the Committee's work programme, taking into account the outcome of discussions on previous agenda items and any other developments taking place across the area.

**Work Programme**

The Work Programme is attached at **Appendix 1** and Members are asked to consider, amend and add to the Committee's draft work programme, as required.

**Remit of the committee**

The Area Constituency Committees:

- Act as a forum for Members to bring forward issues affecting their local Electoral Divisions
- Hear and respond to questions and statements from members of the public relating to anything affecting the community within the constituency area
- Agree a Work Programme which lists items of business which the Committee wishes to consider at future meetings
- Undertake meaningful scrutiny of local health issues within their constituency area, complementing the strategic work undertaken by the Scrutiny of Health Committee
- Undertake meaningful scrutiny of local transport issues within their constituency area, complementing the strategic work undertaken by Transport, Economy and Environment Overview and Scrutiny Committee
- Act as consultees in major decisions that affect their constituency area (including responding to consultations)
- Make recommendations on the application of Innovation funding (supported by the Stronger Communities Team)
- Develop a working relationship with the local MP, sharing updates and information on relevant local issues being addressed by the committee.

**Scheduled committee dates in 2018/19**

Forthcoming committee dates are:

10am on 13 December 2018

10am on 14 March 2019.

**Recommendation**

Members are asked to consider, amend and add to the Committee's draft work programme.
