Shopping coupon scams

If you saw a supermarket coupon for £75, £150 or £250, it would get your attention... Right? Of course it would, and that's exactly what coupon scammers rely on. This is because what appears to be a harmless, low level scam is really a cynical ploy to steal your money, your identity or banish you to a life on suckers' lists.

If you have not seen a fake coupon yet, you may see one soon because it is only a matter of time before someone shares one with you on Facebook, Twitter or WhatsApp, or before the scammers find another way to dangle one under your nose.

How does it work?

1 You might see a social media post, or receive a WhatsApp message or text from a friend saying something like: "Asda is giving free £100 vouchers to EVERYONE for their wedding anniversary".

Sometimes they are referred to as 'vouchers', other times they are called 'gift vouchers' and latterly they have become 'prizes'. They may come or appear to come from a friend, and encourage you to pass them on to make them seem more believable.

2 There is always a link... **BUT DON'T CLICK IT.** The link leads to an online customer survey asking for your name, address, phone number, and date of birth in return for the voucher.

This seems reasonable for the amount of money they are giving away, doesn't it? In reality, it is enough information to take out a loan in your name, and you will never receive the promised vouchers anyway.

3 **But wait, there is even more!**

They will also sell your details to other criminals to use, abuse and bombard you with more scams.

So what can you do to avoid a coupon scam?

The best way to avoid coupon scams is simply to ignore them. You should never click the links because you risk downloading malicious software to your computer or device. Whatever you do, you should never, ever give over any personal details. Finally, do NOT spread the scam by sharing any of the posts or messages with family and friends.
