18 Minutes of the meeting held on 17 May 2023

It was moved and seconded that the Minutes of the Annual Meeting of the Council held on 17 May 2023 having been printed and circulated, are confirmed and signed by the Chairman as a correct record.

The vote was taken and the motion was declared carried unanimously.

19 Apologies for absence

Apologies for absence were received from Councillors Joy Andrews, Philip Barrett, Melanie Davis, Andrew Murday, Subash Sharma and Dave Whitfield.

20 Declarations of Interest

Declarations of Interest were made as follows:

Councillor Karl Arthur regarding Minute 30(i)

Councillor Alyson Baker regarding Minute 32(4) and 32(6).

Councillor Michael Harrison regarding any item involving Health and Adult Services. Councillor Harrison advised that he was relying on a dispensation granted him by the Standards and Governance Committee to enable him to take part in any discussion.

21 Chairman's Announcements

The Chair welcomed the Honorary Aldermen and members of the public and press who were present.

The Chair informed Members of the usual arrangements for the meeting.

The Chair informed Members that there were six Notices of Motion on the agenda and a request had been received that one be debated at the meeting, which was the motion regarding a ban on trail hunting on Council owned land. The Chair was required to give a ruling on whether to follow the normal procedure of referring these motions to the relevant committee or whether they should be debated at the meeting, and ruled as follows:

- (1) Ban on trail hunting on NYC land – motion to be referred to the Corporate and Partnerships Overview and Scrutiny Committee
- (2) A 20mph speed limit in the south and west of Harrogate – motion withdrawn
- (3) Council support for a national ban on the sale of disposable vapes – motion withdrawn
- (4) Northern Powergrid and calls for increased network capacity – motion to be debated at the meeting
- (5) Bathing water application for the River Nidd – motion to be debated at the meeting
- (6) Water quality and the role that the Council has to play – motion to be referred to the Transport, Economy, Environment and Enterprise Overview and Scrutiny Committee

The Chair reminded Members that when considering Notices of Motion a Member can move that the motion can be put now and one Member can speak for five minutes for that Motion and one Member can speak for five minutes against. Motions referred to committee would be moved and seconded without comment.

The death of former North Riding County Councillor Bill Chaytor was noted. Bill was also the first North Yorkshire County Councillor for the North Richmondshire division. Members also noted the recent death of former Hambleton District Councillor John Smith, who served for 17 years as a councillor from 1998 to 2015 and was Chairman of Hambleton District Council in 2009/10.

A minute's silence was held in memory of former County Councillor Bill Chaytor and former Councillor John Smith.

22 Statement by the Leader of the Council

Councillor Carl Les made a statement and answered questions under Council Procedure Rule 2.3 as Leader of the Council, a summary of the key points of which had previously been circulated and which appeared at pages 29 and 30 of the agenda pack and in the Minute Book at pages 137 to 138.

23 Public Questions or Statements

There were five public questions, as follows:

The following public question was submitted by Dr Paul M Hildreth and read out at the meeting:

Councillor Dadd recently said that he wasn't aware of any formalised trail hunting taking place on North Yorkshire council owned land. There are 13 Hunts located across North Yorkshire. Does he therefore believe that these hunts avoid crossing roads, bridleways, disused railway lines?

The following public question was submitted by Hugh Meynell and read out at the meeting:

With the cubbing season less than a month away, organised rural crime gangs are poised ready to hunt and kill foxes with hounds... intentionally and illegally. Hunts across North Yorkshire routinely use the myth of 'Trail Hunting' as a smoke screen for these wildlife crimes.

Speaking from experience as an activist on the front line regularly witnessing illegal fox hunting and crimes against wildlife across North Yorkshire, I would ask you all to please consider the following observations and questions regarding the smoke screen that is trail hunting:

- 1) If legally trail hunting with hounds, following a pre laid scent trail, why are terrier men on quad bikes, equipped with spades and terriers present and active at every hunt meet throughout the season?
- 2) If legally trail hunting why are hounds regularly cast into thick, impenetrable coverts such as Miscanthus grass, black thorn or gorse, where it is impossible to lay a trail for hounds to follow.
- 3) If legally trail hunting why would supposedly well laid trails so often cross busy public highways, railway lines and/or private property and gardens putting the hounds, livestock, pets and the general public at risk of serious injury or worse.
- 4) Why do the hunts respective huntsmen actively encourage and 'hunt on' their hounds with horn and voice calls. Especially when clearly not following a scent trail, instead pursuing the line of a fox, hounds in full cry obviously and blatantly illegally hunting? Studies have shown the horror and distress that a fox suffers when accidentally or indeed purposely pursued by hounds.
- 5) Why, if following a perfectly legal, pre laid trail do Huntsmen, hunt staff, terrier men and hunt supporters act with such extreme animosity towards peaceful, non-violent monitors, saboteurs and indeed concerned members of the public. Why, if trail hunting within the law use horses as weapons, illegally block roads with vehicles and/or horses. Why threaten, abuse and sadly more frequently do the hunts and their supporters resort to abuse and physical violence? If acting within the law what are they trying to hide?

Trail hunting with hounds is a scam, a smoke screen. Cover to continue to commit wildlife crimes and to intentionally and illegally hunt foxes contrary to Section 1 of the Hunting Act 2004.

Thank you

The following public question was read out by Richard Bedford of Unite the Union:

My name Richard Bedford, Regional Coordinating Officer Unite the Union I have responsibility for representing Unite members at Urbaser on the Selby waste management contract.

Our question is to the Council and is; Unite are asking, on behalf of its membership at Urbaser, who operate Selby Waste management contract, that the council take urgent steps to intervene and instruct Urbaser management to engage in positive discussions with Unite representatives to resolve the current dispute by way of enhancing the existing offer that has been rejected by the workforce by way of the agreed collective bargaining process?

Our request to the council is based upon the fact that our membership, and I stress that they do not want to strike, but have been left with no choice, because of the wages they are paid, which are some of lowest in the country. The disruption caused to the public is entirely the fault of Urbaser.

The dispute is a result of the workers rejecting a (percentage) pay offer who are on some of lowest rates in the country for their roles. Bin loaders and grounds workers are paid just £10.64 an hour and refuse lorry drivers, who require an HGV license, are paid just £12.51 an hour.

It is unacceptable that Urbaser thinks it can get away with paying its workers such astonishingly low wages.

North Yorkshire council should not be allowing such exploitative pay for work that is by its nature dirty, heavy and unpleasant. Unite is absolutely focused on defending and improving our members' jobs, pay and conditions and Urbaser's Selby workforce will receive the union's unflinching support.

It should also be noted that Urbaser at the Welwyn Hatfield Council contract awarded a 13.5% increase in base pay with a commitment to set up a working party within two months to work together on introduction of sick pay for our members and an overtime premium.

The strikes are impacting bin collection, street cleaning and road sweeping services in Selby and will intensify if the dispute is not resolved.

Our members and families are faced with in work poverty and are having to make unacceptable life choices due to the already low rates and now being proposed to take a real terms pay cut moving forward with a below inflation increase.

Our members are all local council tax payers and the vested interest, commitment and dedication they show in terms of contract performance is second to none. They are proud of their local area and welcome being part of the New North Yorkshire Council.

Indeed the Government itself have recognised that rates of pay need to increase and have increased the Nationally Living Wage by 9.7% (now £10.42).

Our members claim is not fuelled by greed, but by the necessity to earn enough to buy the basics and looking at the rate of Inflation, which defied expectations by either not coming down as quickly as forecast or by not falling at all.

RPI is at 11.3% is down slightly but remains historically high. CPI remains at 8.7%. So-called 'core' inflation is rising at record levels. Interest rate rises are an aspect of this, affecting mortgage interest payments and flowing through to rents and prices for other services. Indeed, Inflation is higher for people on low incomes.

ONS analysis in 2014 showed how changing prices have different effects on the inflation rates faced by people on low and high incomes because of variations in the goods and services they buy.

This highlighted that people living in poverty spend a much higher proportion of their income on food, energy and housing. So the poorest fifth of the population experienced a higher rate of inflation than the rest of the country in much of the last 20 years.

We continue to request constructive dialogue with Urbaser but nothing is forthcoming as they continue to dig their heels in and covering striking workers by paying premium payments to employees working overtime and playing catch up.

One serious incident has already occurred on the picket line that resulted in a serious injury! Again we request that you contact Urbaser to engage in constructive dialogue with us to resolve.

Councillor Greg White provided the following response:

I was sorry to hear about the incident to the individual and their serious injury, and I certainly wish them a speedy recovery. I have been advised the police conducted an investigation at the time and are not taking any further action.

The Council recognises and respects pay negotiations between Urbaser and its staff are a matter for Urbaser to progress and resolve. The Council encourages both parties to engage in positive discussion to the best interest of all stakeholders.

Looking further ahead, and with the decision to bring the contract back in-house from April 2024, the Council continues to work closely with Urbaser and, where appropriate, engage directly with the workforce. There are some differences in wages between Urbaser and what the Council currently pay, they aren't huge but it gets complicated by the arrangements for overtime etc. I really don't want to get involved in that discussion here today, but we urge them to sit down, talk about it and get it sorted thank you.

The following public question was submitted by Sue Hawthornthwaite and read out at the meeting:

If this proposal is passed, how do the hunts intend to ensure that their hounds - and terrier men - do not stray on to council land in pursuit of a fox - will they break the habit of a lifetime and call the hounds back, and who will enforce this, and how?

The following public statement was submitted by Rob Williams and read out at the meeting:

With the introduction of the hunting act that came into force in February of 2005, we saw hunts turn to a new form of hunting, this was re-branded as trail hunting. The idea of trail hunting was to replicate actual pre ban hunting as closely as possible, hoping that at some point a repeal would take place. This would then allow hunts to go back to Fox hunting as it was prior to the ban. Today Fox hunts continue to train hounds in exactly the same way they always have, even using Fox urine or an artificial equivalent as a scent marker when laying trails and even very unwisely laying these trails through areas where there is a high probability that a Fox will be. Hunts continue today to lay trails and send hounds through areas of scrub, gorse, crops, small spinneys, large areas of woodland and extremely thick briers all in my opinion very foolish and negligent, also you have to ask yourself with regards to large areas of briers and Brambles how is it physically possible to take a trail through such inhospitable dense foliage, sadly I believe this to be completely deliberate and

has only one aim in mind, that being to flush a fox and then illegally hunt it.

At this point I'd like to draw your attention to the 573 successful prosecutions that have taken place between 2005 and 2021 and more after that with each passing season. These successful prosecutions clearly and legally in law show that hunts are using loopholes in the 2004 hunting act to circumnavigate and cynically break the law time and time again and this shows that trail hunting is nothing more than a smokescreen for the actual hunting of Foxes with hounds.

In August 2020 a series of training webinars which showed senior figures from the Master Of Fox Hounds Association, hunting's governing body at the time and the Countryside Alliance were caught on camera, seeming to admit that trail hunting is a smokescreen for the chasing and killing of foxes. These two quotes are taken word for word from those webinars which can easily be found online, a senior figure from within the Master Of Fox Hounds Association said at the webinar "It's a lot easier to create a smokescreen if you've got more than one trail layer operating and that is what it's all about, trying to portray to the people watching that your going about your legitimate business". The second quote comes from the Countryside Alliance police liaison officer "Now you know more about hunting than the saboteurs and courts will know but what it will do is create the smokescreen or the element of doubt that we haven't deliberately hunted a fox, so if nothing else you need to record that and it will help us provide a defence to huntsmen" These webinars were leaked to the media, TV considered the webinars to be so significant that they aired a piece on national television and many national newspapers covered the topic discussed in the webinars, these leaked webinars must have clearly laid the seeds of doubt because in November the following year the National Trust made the voted decision to ban all trail hunting on its land, this was followed by suspensions from Forestry England, Lake District National Park and United Utilities who have all at this current time come to the conclusion that trail hunting is ambiguous at best and at worst blatantly illegal and deceitful, a definite shame on the modern society we live in.

Thank you for listening to my statement about why trail hunting should be banned on council land, it is a very brief and nowhere near as adept as I'd like, so much more could be said given the extremely serious nature of wildlife crime, I encourage all those who seek the truth about trail hunting to do some research, go online watch the webinars ,see the insurmountable evidence that shows hunts up and down this land are using trail hunting as a clear smokescreen to evade the law, once again the numerous prosecutions, video evidence and witness statements speak volumes about trail hunting and clearly show it is nothing more than a ruse, ploy and scheme intended to blatantly deceive the law of this land. Thank you for listening to my statement.

Councillor Gareth Dadd provided the following response:

I'm going to first of all deal with the first question that was submitted on behalf of Dr Hildreth. He suggested that, and that I'm summarizing very much now, that hunts use roads, bridle ways, disused railway lines and the likes. I'm sure I'm referenced back in the statement I made in response to Councillor Maw at the last full council meeting. I'm sure Dr Hildreth will be aware I was referring to property and green land, if you like, rather than common infrastructure which is open to all. Our roads and bridle ways are open to all and my personal view is that that should remain the case without prejudicing any debate that will come before this Chamber. I will lump if you like the three further questions together. I don't think there was any direct questions being posed, more a narrative and comment around the general issues. I'm not as I said a moment ago wishing to prejudice any debate that will come to this Chamber as I said other than I will say I do believe we need further advice on how, if the Chamber was minded to implement the ban, it could be enforced and the difficulties that that could pose.

(1) Motion calling for a ban on trail hunting on council owned land

North Yorkshire Council does not allow illegal activity on our land. As cited by Chief Supt Matt Longman, the National Police Chief's Council lead on foxhunting, the 2004 Hunting Act is not working effectively and illegal hunting is still common practice. Under the act, hunting mammals with hounds is banned but trail hunts using the scent of animals are allowed to take place. Across the country, hunts are using trail hunts as a loophole to carry on hunting foxes and other animals. So called terrier men are frequently present with shovels and terriers, while scent trails are often not present.

There have even been online sessions that tell people how to avoid being caught by using trail hunting as a smokescreen for the hunting of foxes. The Hunting Act is unworkable and leaves the police caught in the middle of the hunting debate.

Public confidence is being eroded.

A recent FOI request to NYC asking if trail hunting takes place on council owned land produced a reply stating that "we are not aware of any trail hunting activity that takes place on council owned land".

A similar response from the Exec when asked same.

North Yorkshire is the largest county in England. There are thirteen Hunts in North Yorkshire according to "northyorkshirehorse" and the BHSA (British Hounds Sports Assoc): Derwent, Sinnington, York & Ainsty North, Bedale, Bilsdale, Cleveland, Goathland & Glaisdale, Hurworth, Middleton, Staintondale, Highmoor Bloodhounds, West of Yore, York & Ainsty South.

This council has a duty to uphold the law. We must be pro-active. In order to guarantee the safety of North Yorkshire's wildlife I present the following motion to council.

We call upon Council:

"This council resolves to ban trail hunting, exempt hunting, hound exercise and hunt meets outright across all council land where legally possible, including any NEW tenancies where there are positive covenants attached to the land that currently require the council as owner to allow trail hunting events and formal gatherings."

We request that the Chairman considers that the matter be debated today at Council without being referred to the Executive or a relevant committee. This is because the hunting season is September to March and therefore this motion requires debating at the July full council as to do so in November will potentially put the lives of wildlife at risk.

Proposer – Councillor Rich Maw
Seconder – Councillor Arnold Warneken

The motion was moved and seconded and referred to the Corporate and Partnerships Overview and Scrutiny Committee.

(2) Motion calling for a 20mph speed limit to be introduced across south and west Harrogate

North Yorkshire Council resolves to: implement a maximum speed of 20mph and other associated infrastructure across south and west Harrogate to protect children and other

vulnerable members of the community in Oatlands, parts of Pannal, the Stray, Hookstone, St George's and the Pannal Ash area.

- a) This will be a standalone work package, separate from NYC 20mph policy (January 2022) and 20mph policy review (26 June 2023) and to note this is the first scheme of its type to address this issue which exists across the County, being a start for further schemes across the County and/or Harrogate & Knaresborough, specifically around schools
- b) It will be integrated into the existing NYC Harrogate traffic management work programme and implemented with immediate effect;
- c) NYC will work directly with the local campaign groups Oatlands Road Safety & Active Travel Campaign and Pannal Ash Safe Streets, the Road Safety School Group (including Head teachers & education leaders) and the Harrogate & Knaresborough Area Constituency Committee (ACC) on the detail and delivery of the package;
- d) NYC will ensure this has no effect on the agreed and committed Sustainable Transport Package of road safety and infrastructure improvements in the Pannal Ash area. This will be ring-fenced and protected (and has a budget of c£565,000 from the National Productivity Investment fund).

Seconder – Councillor Arnold Warneken

The motion was withdrawn by the proposer and seconder as the Executive decision relating to the review of the 20 mph speed limit and zone policy was now the subject of a call-in.

(3) Motion calling for a national ban on the sale of disposable vapes

The recent increase in availability and use of disposal vapes has led to the position where it is estimated that £1.3 million of them are thrown away each week. The recycling and disposal of the vapes poses many challenges as they contain potentially dangerous metals, battery acid, and nicotine. Many of these disposable vapes are also littered in the street

and pose an environmental risk as they enter the water course and soil surface. I therefore call upon Council to write to the Secretary of State for Environment, Food and Rural Affairs to urge for a national ban on the sale of disposable vapes.

Proposer – Councillor Kevin Foster
Secunder – Councillor Rich Maw

The motion was withdrawn by the proposer and seconder as the Leader had committed to make representation to the Secretary of State on this matter.

(4) Motion regarding Northern Powergrid and calls for increased network capacity

The Notice of Motion was moved by Councillor Richard Foster and seconded by Councillor Bryn Griffiths.

The motion was then debated.

An amendment to the motion was moved by Councillor Neil Swannick and seconded by Councillor Jack Proud that

Third paragraph.delete the line “This Council asks Northern Powergrid to:” and replace with:

“This Council instructs its Chief Executive to write to the Office of Gas and Electricity Markets (Ofgem) about Northern Powergrid’s apparent failure to address the implications of the Government’s policy commitment to a fully decarbonised power system by the year 2035; and to ask Ofgem to require Northern Powergrid or any successor Distribution Network Operator (DNO) to:”

The amendment was then debated. It was moved and seconded that Council move to the vote, and on a vote being taken 61 Members voted for the motion, 14 voted against and there was 1 abstention.

On a vote being taken on the amendment 28 Members voted for the amendment, 47 voted against and there was 1 abstention. The amendment therefore fell.

A further amendment was moved by Councillor Steve Mason and seconded by Councillor Sam Cross that the words “as soon as is practical” be deleted from line two. On a vote being taken on the amendment 34 Members voted for the amendment and 46 voted against, there were no abstentions. The amendment therefore fell.

It was moved and seconded that the Council move to the vote on the Notice of Motion as submitted and on a vote being taken the motion to move to the vote was carried.

On a vote being taken on the substantive motion 75 Members voted for the motion, there were no votes against and there was one abstention and therefore the Chair declared the motion carried.

Resolved –

This Council confirms its commitment to:

(1) become carbon neutral in its own operations as soon as is practical.

(2) play a leading role in assisting individuals, communities, businesses and other organisations to dramatically reduce their carbon emissions.

This Council notes that:

(1) delivering many of the proposed projects to reduce carbon emissions in North Yorkshire will require significant additional capacity and connections to the electricity distribution network.

(2) Northern Powergrid, the monopoly supplier of electricity distribution in North Yorkshire, seems unable to deliver the required capacity and connections in a timely or affordable way.

This Council asks Northern Powergrid to:

(1) explain how and when it intends to increase its capacity to enable North Yorkshire to achieve its climate change goals.

(2) increase its investment in the electricity network, including in smart grids, to ensure that the residents and organisations that invest in generating energy locally benefit from higher economic and environmental returns.

(3) outline any barriers that might prevent or delay it increasing network capacity and investment.

(4) explore how this Council might assist it to overcome such barriers.

Proposer – Councillor Richard Foster

Seconder – Councillor Nigel Knapton

(5) Motion calling for support for a bathing water application for the River Nidd

The Notice of Motion was moved by Councillor Paul Haslam and seconded by Councillor Nathan Hull.

The motion was then debated.

It was moved and seconded that the Council move to the vote on the Notice of Motion as submitted and on a vote being taken the motion to move to the vote was carried.

On a vote being taken on the substantive motion the Chair declared the motion carried unanimously.

Resolved –

This council supports a bathing water application to the Department for the Environment, Food and Rural Affairs (DEFRA) for the Lido on the River Nidd in Knaresborough.

This Council notes that the Nidd Action Group (a group dedicated to improving the water quality in the whole of the River Nidd) is working with other individuals and organisations on a bathing water application for the River Nidd in Knaresborough and that this application requires the support of the local authority which is North Yorkshire Council.

This council believes:

- 1) That the River Nidd is an important resource for the people of Knaresborough and the wider North Yorkshire area.
- 2) That improving the quality of the River Nidd would have significant benefits for the environment, public health, recreation, and the local economy.

- 3) That supporting the bathing water application for the River Nidd is in the best interests of the people of Knaresborough and North Yorkshire.

This Council resolves:

To express its support for the bathing water application for the Lido at the River Nidd in Knaresborough.

Proposer – Councillor Paul Haslam

Secunder – Councillor Nathan Hull

(6) Motion regarding water quality for improvements in, health, wildlife, biodiversity and economy

This Council resolves to:

1. Recognise it has a role to protect the rivers, watercourse and seas in North Yorkshire and precious habitats these support as far as possible from the cumulative impacts of pollution, including in line with its local planning policy and the National Planning Policy Framework.
2. Be aware that there is evidence of deterioration of water quality due to the cumulative impact of nitrates phosphates, micro-plastics, pharmaceuticals, historical metal mining activities, and multiple sewage discharge events from diffuse and point source pollution including private and statutory waste treatment systems and seek to better understand the impact on our local rivers, wildlife and the health of our residents.
3. Draw on relevant evidence that assesses the cumulative impact of pollution so that this is appropriately factored into the emerging North Yorkshire plan, including the overall level of future development
4. Ask the Transport, Economy, Environment and Enterprise Overview and Scrutiny Committee to invite senior representatives from Yorkshire Water, the Environment Agency, Yorkshire Dales River Trust, Nidd Action Group, Natural England, Yorkshire Wildlife Trust and other interested groups to attend a meeting to allow for a better understanding of the current levels of pollution and remedial action being taken in this regard.
5. Ask Yorkshire Water, from this date onwards, in its planning consultation responses for major developments, to clarify which treatment works will be managing the sewage; confirm that these treatment works have the additional capacity to take waste from agreed developments and whether it has the information available to assess the impact on the number or duration of sewage discharges into local rivers or seas, and if it does have this information to share it (noting that this can only be requested not required).
6. Request that planning assessments, from now onwards, include in all reports on major developments appropriate coverage of the impact on watercourses, including the potential for the development to affect sewage outflow into watercourses, so that this information is clearly and transparently set out. related to this is reducing the impact of surface water and encouraging the installation of Sustainable Urban Drainage systems (SUDs) on new developments. whether this could be a standard for North Yorkshire
7. Ask the Leader and appropriate Executive Members to collaborate with other Local
