### Death Benefit – Mr A

#### 1.0 Purpose of the Report

- 1.1 To provide Members with further information relating to the death of Mr A on 5 May 2020 in order that a decision can be made as to the beneficiary of the death grant now payable.

#### 2.0 Background

- 2.1 It is an administering authority discretion under the regulations to decide to whom death grants are paid. The discretion wording was updated in September 2020 following review by the Fund's legal adviser and is shown below:

*“In assessing who should receive any death grant, the administering authority will make reasonable efforts to identify potential beneficiaries and to gather relevant information. Potential beneficiaries can be a member's nominees, personal representatives, relatives or dependants.*

*The administering authority will take into account all information that it receives in making a decision, but most importance will be attached to the member's nomination where one exists. The administering authority will however not always follow the nomination. In particular (but without limitation), the administering authority may decide to award the death grant to someone else where the member's circumstances have materially changed after the nomination was made, or where there are other factors which (in the view of the administering authority) indicate that this would not be appropriate.*

*Where necessary, cases will be referred to the Pension Fund Committee for a decision.”*

- 2.2 It is standard practice for the NYPF to pay death benefits in accordance with the Nomination Form completed by the member. In this particular case, we believe, having reviewed the information provided by various family members and the widow, there are other factors that should be considered before making payment of the death grant.
- 2.3 As instructed by the Committee in the March 2021 meeting further information and clarification has been obtained regarding the life insurance policy that was in place.
