Executive Members

26 August 2022

Schemes to be added to the Highways Capital Forward Programme

Report of the Assistant Director – Highways and Transportation

1.0 Purpose of Report

- 1.1 To seek agreement from the Corporate Director, Business and Environmental Services (BES), in consultation with the Executive Member for Highways and Transportation, to add new schemes to the Highways Capital Forward Programme.

2.0 Background

- 2.1 The Highways Capital Programme (HCP) is made up of Street Lighting, Bridges and Structures, Integrated Transport and Structural Highway Maintenance. They are each subject to their own prioritisation methods based upon an assessment of the problem that is being addressed.
- 2.2 The Corporate Director - BES in consultation with the Executive Member for Highways and Transportation considered a report on 27 May 2022 where the provisional headline allocations and distribution of the 2023/24 budget for the various works categories were agreed. These headline allocations are based on an indicative funding settlement of £40.07M from the Department of Transport (DfT) and is the same as funding received for the current financial year.
- 2.3 Delivery of the 22/23 HCP is well underway, with a significant proportion of schemes either completed or in progress. There remains some works to start on site, however, plans for these are well advanced. Officers are working closely with colleagues at North Yorkshire Highways to manage programme delivery and to ensure that we maximise the number of schemes that we can deliver within our budget. Steps are being taken to bring forward member approved schemes from the Highways Capital Forward Programme (HCFP) in to 22/23 to replace schemes that are being deferred into future years due to issues with delivery on site.

3.0 Programme development Process

- 3.1 The programme development process is outlined below
- 3.2 Phase one, the forward programme. Following approval at this meeting, new schemes will sit within the Highways Capital Forward Programme (HCFP). This is effectively a long list of approved schemes that do not have a delivery date or year assigned to them. Any slipped schemes from 22/23 are included in the HCFP. It is important to note that inclusion within the HCFP does not guarantee delivery in a specific financial year.

- 3.3 Phase two, the annual programme. This is made up of selected schemes from the HCFP to the value of available funding. Schemes not included within the annual programme will remain on the forward programme. A draft 23/24 annual programme is being developed and will be refined and finalised over the next three months. An update on the 23/24 annual programme will be provided at the November 2022 Corporate Director (BES) and BES Executive members meeting.
- 3.4 The process of developing the 23/24 annual programme will take into consideration cost changes associated with inflationary pressures being experienced across the global economy, which are particularly prevalent in the highways and construction sectors. Revised costs estimates will be developed to ensure that increases in costs are factored in. Given that the amount of funding from DfT is unlikely to increase, it is anticipated that we will not be able to deliver as many schemes as in previous years. Discussions are ongoing with supply chains via North Yorkshire Highways to identify cost changes for the forthcoming financial year.
- 3.5 Phase three, the delivery programme. Once schemes are confirmed for delivery within a financial year as part of the annual programme, the delivery programme is developed. This is an operational programme with scheme start and finish dates included. Monitoring of in year programme delivery will be carried out against the delivery programme.
- 3.6 This process continues to allow us the ability to develop a bank of “on the shelf delivery ready” schemes in advance, allowing more efficient scheme delivery and the ability to respond more quickly to any changes in funding. It also provides more flexibility and improves forward visibility of future work for North Yorkshire Highways, allowing them to work more closely and efficiently with their wider supply chain.

4.0 Schemes for addition to the Forward Programme

- 4.1 Appendices 1-8 provide information on the schemes that are being added to the forward programme, broken down by Highways Area Office and Bridges & Structures, whilst Appendix 9 sets out the proposed allocations for the 2023/24 footway patching and slurry sealing allocations.
- 4.2 Schemes are added to the forward programme using data collected from asset condition surveys alongside consideration of sites identified by operational teams as requiring future maintenance activity.
- 4.3 In total just over £28M of schemes are proposed to be added to the HCFP. Alongside schemes already on the HCFP, this takes the total value to £60M. This is equivalent to about three years' worth of schemes for delivery. Rising prices of fuel and materials though remains a concern and they continue to be closely monitored. Any inflationary pressures feeding through the supply chain will have to be covered by the LTP capital allocation, potentially impacting in overall terms, on the number of schemes that can be delivered. This remains a regular discussion item with our North Yorkshire Highways colleagues from both an NYH and a wider supply chain perspective.
- 4.4 For the purposes of budget and programme management, surface dressing and patching schemes within the annual programme will be combined into area specific budget lines based on network hierarchy and treatment type. Separate surface dressing and patching delivery programmes will be developed, allowing for oversight of scheme delivery.

5.0 Next Steps

- 5.1 Officers, working alongside our partner consultants WSP and APP, are carrying out work to finalise scheme designs for the 23/24 annual programme. A large proportion of schemes have already been designed, with design work also taking place on schemes within the HCFP which will be delivered from 24/25. This ensures that we maintain a bank of delivery ready on the shelf schemes.
- 5.2 As outlined earlier in this report, a report outlining the 23/24 annual programme will be presented to the Corporate Director (BES) and BES Executive Members meeting in November 2022.

6.0 Financial Implications

- 6.1 The approach of developing a forward programme allows for flexibility in developing annual programmes, to match confirmed funding levels and proposed scheme costs. Schemes included within the forward programme will be delivered across multiple financial years, dependent upon available funding.
- 6.2 The contents of this report make no changes to the BES Capital Plan expenditure limits.

7.0 Equalities Implications

- 7.1 Consideration has been given to the potential for any adverse equality impacts arising from the recommendation. An Initial equality impact assessment screening form has been carried out see Appendix 10. The allocation of funding is based on the “manage, maintain and improve” (MMI) hierarchy set out in Local Transport Plan 4; which has been the subject of an Equality Impact Assessment (EIA). This concluded that the introduction of fewer improvement schemes may have a greater impact on people with mobility difficulties or without access to a private vehicle as there will be fewer new facilities provided e.g. pedestrian crossings, dropped kerbs, bus stop accessibility improvements; however, it is also considered that prioritising maintenance, particularly for footways, through the MMI hierarchy is likely to produce a net benefit for people with the same protected characteristics; particularly in terms of age and disability.
- 7.2 Furthermore, the local accessibility budget has been agreed and introduced. This has achieved a positive equality impact as it provides flexibility for funding for improvement schemes such as dropped kerbs which reduces any impact the MMI has on people with mobility difficulties or those without access to private vehicles. This also ensures the recommendation does not have an adverse impact on any of the protected characteristics identified in the Equalities Act 2010. Taking into account the local accessibility budget and the positive outcome of the EIA in the Local Transport Plan 4. With regards to the MMI hierarchy it is considered that there are no adverse impacts arising from the allocation of funding based on the MMI and subsequent recommendation. Therefore, an Equalities Impact Assessment is not required. The Authority will continue to consider and pay due regard to the Public Sector Equality Duty throughout the allocation of funding for the Capital Programme.

8.0 Legal Implications

- 8.1 The County Council as Local Highway Authority has a wide range of statutory duties imposed by a variety of legislation relating to highways and transportation and also has a wide range of duties imposed by legislation in its capacity as Lead Local Flood Authority, Street Authority and Local Traffic Authority. This includes a duty under S41 of the Highways Act 1980 to maintain highways maintainable at the public expense

and a duty under S122 of the Road Traffic Regulation Act 1984 to secure the expeditious, convenient and safe movement of vehicular and other traffic (including pedestrians) and the provision of suitable and adequate parking facilities on and off the highway. Under S16 of the Traffic Management Act 2004, the County Council is also required to manage its road network to secure the expeditious movement of traffic in that network.

8.2 The forward programme has been developed and prioritised in line with the County Councils duties and responsibilities under the above and other legislation, including the Transport Act 2000 and the Flood and Water Management Act 2010.

9.0 Climate Change Impact

9.1 A climate change impact assessment has been carried out, see Appendix 11. This has identified that the development of a forward programme will help to improve efficiency of delivery, reducing waste and emissions through improved coordination and planning of works.

10.0 Recommendation

10.1 It is recommended that the Corporate Director, Business and Environmental Services (BES), in consultation with the Executive Member for Highways and Transportation, approve the schemes listed in Appendix 1-9 for inclusion within the Highways Capital Forward Programme.

BARRIE MASON
Assistant Director - Highways and Transportation

Author of Report: James Gilroy

Background documents: None

Notes on Appendices

The HCFP is based on schemes within specific links & sections of our highway network. Some schemes will include more than one link and section. Where this happens, overall scheme costs will be assigned to one link and section and no cost assigned to the other links and sections within the scheme. These links and sections are identified as “Cost included in adjacent street costs” in the following tables.

We are in the process of finalising cost estimates for some schemes within the HCFP. Where this is the case the cost column will include “Tbc”. Costs for these schemes will be updated through the initial design and development phase and will be included within the November 2022 BES Executive Members report.

Area 1 (Richmondshire) Schemes for inclusion in the Highways Capital Forward Programme.

Various	Network Rail	Various	£30,000	Countywide

Proposed Footway Patching & Slurry Sealing Allocations for 23/24

Highway Area	Footway Treatment	Allocation for 2023/24*
Area 1	Cat 1,1a 2 Footway Patching	£14,729
	Cat 3,4,5 Footway Patching	£10,424
	Cat 3,4, 5 Slurry Sealing	£43,366
Area 2	Cat 1,1a 2 Footway Patching	£8,079
	Cat 3,4,5 Footway Patching	£18,890
	Cat 3,4, 5 Slurry Sealing	£81,934
Area 3	Cat 1,1a 2 Footway Patching	£28,317
	Cat 3,4,5 Footway Patching	£23,630
	Cat 3,4, 5 Slurry Sealing	£93,564
Area 4	Cat 1,1a 2 Footway Patching	£10,160
	Cat 3,4,5 Footway Patching	£11,594
	Cat 3,4, 5 Slurry Sealing	£47,181
Area 5	Cat 1,1a 2 Footway Patching	£20,095
	Cat 3,4,5 Footway Patching	£10,685
	Cat 3,4, 5 Slurry Sealing	£44,065
Area 6	Cat 1,1a 2 Footway Patching	£9,368
	Cat 3,4,5 Footway Patching	£32,494
	Cat 3,4, 5 Slurry Sealing	£135,173
Area 7	Cat 1,1a 2 Footway Patching	£9,252
	Cat 3,4,5 Footway Patching	£17,283
	Cat 3,4, 5 Slurry Sealing	£71,896

Initial equality impact assessment screening form

Initial equality impact assessment screening form (As of October 2015, this form replaces 'Record of decision not to carry out an EIA')			
This form records an equality screening process to determine the relevance of equality to a proposal, and a decision whether or not a full EIA would be appropriate or proportionate.			
Directorate	Business and Environmental Services		
Service area	Highways and Transportation		
Proposal being screened	Agree the inclusion of schemes into the Highways Capital Forward Programme		
Officer(s) carrying out screening	James Gilroy		
What are you proposing to do?	Deliver a programme of highways capital works.		
Why are you proposing this? What are the desired outcomes?	To maintain, and where appropriate, improve the highway asset infrastructure and to comply with the County Councils duties and responsibilities under the relevant legislation (as detailed in the Report).		
Does the proposal involve a significant commitment or removal of resources? Please give details.	The commitment is to deliver the schemes within the forward programme across forthcoming years in line with funding awarded from the Department of Transport.		
Is there likely to be an adverse impact on people with any of the following protected characteristics as defined by the Equality Act 2010, or NYCC's additional agreed characteristics? As part of this assessment, please consider the following questions: To what extent is this service used by particular groups of people with protected characteristics? Does the proposal relate to functions that previous consultation has identified as important? Do different groups have different needs or experiences in the area the proposal relates to? If for any characteristic it is considered that there is likely to be a significant adverse impact or you have ticked 'Don't know/no info available', then a full EIA should be carried out where this is proportionate. You are advised to speak to your Equality rep for advice if you are in any doubt.			
Protected characteristic	Yes	No	Don't know/ No info available
Age		✓	
Disability		✓	
Sex (Gender)		✓	
Race		✓	
Sexual orientation		✓	
Gender reassignment		✓	
Religion or belief		✓	
Pregnancy or maternity		✓	
Marriage or civil partnership		✓	

NYCC additional characteristic				
People in rural areas		✓		
People on a low income		✓		
Carer (unpaid family or friend)		✓		
Does the proposal relate to an area where there are known inequalities/probable impacts (e.g. disabled people's access to public transport)? Please give details.	Yes. Physical accessibility of the highway network for people with mobility difficulties.			
Will the proposal have a significant effect on how other organisations operate? (E.g. partners, funding criteria, etc.). Do any of these organisations support people with protected characteristics? Please explain why you have reached this conclusion.	No. Highway Capital Maintenance is a specific annual programme of works which doesn't rely on the activities of other organisations.			
Decision (Please tick one option)	EIA not relevant or proportionate:	✓	Continue to full EIA:	
Reason for decision	The allocation of funding is based on the "Manage, Maintain and Improve" (MMI) hierarchy set out in Local Transport Plan 4, which has been the subject of an Equality Impact Assessment (EIA). This concluded that the introduction of fewer improvement schemes may have a greater impact on people with mobility difficulties or without access to a private vehicle as there will be fewer new facilities provided e.g. pedestrian crossings, dropped kerbs, bus stop accessibility improvements; however, it is also considered that prioritising maintenance, particularly for footways, through the MMI hierarchy is likely to produce a net benefit for people with the same protected characteristics; particularly in terms of age and disability.			
Signed (Assistant Director or equivalent)	Barrie Mason			
Date	17 August 2022			

Appendix 11 Climate change impact assessment

The purpose of this assessment is to help us understand the likely impacts of our decisions on the environment of North Yorkshire and on our aspiration to achieve net carbon neutrality by 2030, or as close to that date as possible. The intention is to mitigate negative effects and identify projects which will have positive effects.

This document should be completed in consultation with the supporting guidance. The final document will be published as part of the decision-making process and should be written in Plain English.

If you have any additional queries which are not covered by the guidance, please email climatechange@northyorks.gov.uk

Please note: You may not need to undertake this assessment if your proposal will be subject to any of the following:

Planning Permission
Environmental Impact Assessment
Strategic Environmental Assessment

However, you will still need to summarise your findings in in the summary section of the form below.

Please contact climatechange@northyorks.gov.uk for advice.

Title of proposal	Automated Highway asset data collection and processing contract.
Brief description of proposal	To seek agreement from the Corporate Director, Business and Environmental Services (BES), in consultation with Cllr. Keane Duncan Executive Member for Access, to add new schemes to the forward Highways Capital Programme
Directorate	BES
Service area	Highways and Transportation
Lead officer	James Gilroy
Names and roles of other people involved in carrying out the impact assessment	
Date impact assessment started	10.08.2022

Options appraisal

Were any other options considered in trying to achieve the aim of this project? If so, please give brief details and explain why alternative options were not progressed.

No.

What impact will this proposal have on council budgets? Will it be cost neutral, have increased cost or reduce costs?

Please explain briefly why this will be the result, detailing estimated savings or costs where this is possible.

It is hoped that the forward programme will help to reduce costs. Adding schemes to the forward programme does not have an immediate financial cost, however it provides the ability for operational teams to develop more efficient programmes of work when identifying schemes for delivery within an annual programme.

How will this proposal impact on the environment? N.B. There may be short term negative impact and longer-term positive impact. Please include all potential impacts over the lifetime of a project and provide an explanation.		Positive impact (Place a X in the box below where	No impact (Place a X in the box below where	Negative impact (Place a X in the box below where	Explain why will it have this effect and over what timescale? Where possible/relevant please include: <ul style="list-style-type: none"> • Changes over and above business as usual • Evidence or measurement of effect • Figures for CO₂e • Links to relevant documents 	Explain how you plan to mitigate any negative impacts.	Explain how you plan to improve any positive outcomes as far as possible.
Minimise greenhouse gas emissions e.g. reducing emissions from travel, increasing energy efficiencies etc.	Emissions from travel	x			More efficient planning and coordination of future highway works, will help to reduce emissions form construction vehicles.		
	Emissions from construction	x			More efficient planning and coordination of future highway works, will help to reduce emissions form construction vehicles.		
	Emissions from		x				

How will this proposal impact on the environment? N.B. There may be short term negative impact and longer-term positive impact. Are there any recognised good practice environmental standards in relation to this proposal? If so, please detail how this proposal meets those standards.

N/A

Summary Summarise the findings of your impact assessment, including impacts, the recommendation in relation to addressing impacts, including any legal advice, and next steps. This summary should be used as part of the report to the decision maker.

The development and implementation of the forward programme will assist in planning of future highways capital maintenance schemes helping to improve efficiency and reduce waste.
