Friarage Surgical Hub

Safety and Quality First 

A photograph of two healthcare workers, a woman and a man, standing outdoors in front of a brick building with a balcony. Both are wearing white uniforms and blue surgical masks. The woman is using a silver walker. A large blue circle with white text is overlaid on the bottom left of the image.

Friarage

STRIVE

An architectural rendering of the New Friarage Surgical Hub. The building features a modern design with a large, cantilevered roof and a facade of light-colored, textured panels. A prominent glass entrance is visible, with the words "Friarage Surgical Centre" displayed on the wall to the left. The foreground shows a paved plaza with a curved path, a wooden bench, and some landscaping with trees and shrubs. A blue circular graphic is overlaid on the bottom left, containing the text "New Friarage Surgical Hub".

New Friarage Surgical Hub

- ✓ Replacing the hospital's six existing operating theatres with a modern Surgical Hub
- ✓ Will include six main operating theatres, two minor operating theatres and a surgical admission and day hub.
- ✓ Will enable the Friarage to more than double the number of planned operations it carries out each year

Spring 2023

- Ground-breaking on new Surgical Hub

Winter 2024/25

- New Surgical Hub opens

THANK YOU
