Subject: Licence Application @ Sedgefield House, Ainderby Steeple. HDC planning ref. 23/00625/FUL

Categories: Anita

We have objected to the planning application for this venue. However ,should the permission be granted ,we consider a full licence should not be issued and the business, we believe ,would be able continue on TENs licence giving a better control.

The reason for this statement is, that over the past 12 months the residents of Greenhill and Warlaby Lanes have been subjected to periods of nuisance by noise/disturbance from people attending the wedding and camping venues, also whilst they are travelling to and from the venue on foot and by vehicles.

As the licence application states, a need to provide music/ alcohol throughout periods of 16hrs ,7days a week . This should be put to a trial period to assess the effectiveness/success of the events management and to avoid any repercussion of the events, as in the past 12 months, therefore no further detriment to local residents .
