Subject: Full Variation Crimple - C23/00828/LAPFUV

I am the chairman of All Saints Court Residents Association. There are seven houses in the Courtyard . The residents of all seven houses are members of the Association

We object to this application on the grounds of the Prevention of Public Nuisance.

Crimple Hall lies in the bottom of the valley on the right bank of the river Crimple . From there the land rises on three sides. Open field surround it on both sides of the main road. There are individual trees along the river banks and in the fields but these and Allen Wood on Church Lane do not provide sound insulation except to Sandy Bank Cottages

The sound rises to the houses in All Saints Court, to those in the Stone Rings area, the sound reaches the rising ground of Almsford Bank to Fullwith Road and its adjoining south facing side streets, to the south to the houses in Drury Lane and Walton Place, and even to Main Street and Station Road in Pannal, Pannal Green houses and those in Clark Beck Close . There is little to buffer the noise from Crimple Hall when music is being played on their sound systems.

In All Saints Court we have noted an annoying level of sound coming from Crimple Hall in the late evening under its present licence. We object to the granting of possibility of music being allowed to be performed until much later times than at present and even after midnight. A " silent disco" rule, using bluetooth headphones, after 22.00hrs might be a helpful condition.

We object to the application to extend the hours for serving and/or selling alcoholic drinks after 23.00hrs. .

Yours sincerely, Peter FM Wrigley

Chairman of All Saints Court Residents Association
