YES/NO

Reasons for decision: -

In September 2018, the Council had launched its SEND Strategy. This detailed how SEND provision would be transformed over a 5-year period to help ensure that children and young people with SEND can be educated locally in North Yorkshire. The strategy outlined the rationale for the proposed changes to the model of enhanced mainstream schools, which will start to be implemented from September 2020.

It has been proposed that 31 targeted mainstream provisions would be in place once the programme has been fully established. With nine schools taking part in the first wave of implementation. Formal consultation with schools and key stakeholders was undertaken from 6 February 2020 to 15 March 2020. Overall there was disagreement expressed by respondents to three of the four questions. Analysis of the responses indicated that the disagreement was not with the model itself but related to concerns that at present there are not enough places or provisions. This will be addressed with the roll out of the model to achieve 31 provisions and 48 places.

There was nothing in responses to the consultation that would lead to a change in the approach that had been proposed. The proposed approach would create new school places and ensure that support was in place and would also enable children to be placed locally, near to where they live. This would be better for children and their families and also help to save money.
