Resilience and Emergencies Annual Update 2024

1.0 PURPOSE OF REPORT

- 1.1 This report provides an update on progress and incidents impacting emergency planning and community resilience within the Area Constituency Committee and wider council area.

2.0 BACKGROUND

- 2.1 Under the Civil Contingencies Act 2004 (CCA) North Yorkshire Council (NYC) is defined as a Category 1 organisation.

The CCA is the driver for how agencies prepare and plan for emergencies, working nationally, locally and co-operatively to ensure civil protection in the UK

The Act places a statutory duty on the NYC to:

- Assess the risk of emergencies occurring and use this to inform contingency planning;
- Put in place emergency plans;
- Put in place Business Continuity Management arrangements;
- Put in place arrangements to make information available to the public about civil protection matters and maintain arrangements to warn, inform and advise the public in the event of an emergency;
- Share information with other local responders to enhance co-ordination;
- Co-operate with other local responders to enhance co-ordination and efficiency; and
- Provide advice and assistance to businesses and voluntary organisations about business continuity management (Local Authorities only).

Emergency Planning and Community Resilience should aim where possible to prevent emergencies occurring, and when they do occur, good planning should reduce, control or mitigate the effects of the emergency. It is a systematic and ongoing process which should evolve as lessons are learnt and circumstances change.
