Current Services

How our current services have faired during the Covid 19 Pandemic

- The Inpatient ward has been reduced from 16 to 14 beds to be Covid secure
- Minor Injuries Unit has made some amendments to ensure it is within Covid 19 guidelines such as reducing it's hours of running to 6.30pm
- MSK Physiotherapy has continued to run with the introduction of digital solutions initially and face to face appointments if required.
- GP Out of Hours Service has continued to run as before
- We have continued to deliver all our services though the method of delivery may have changed with introduction of more digital solutions for patients
- Most non inpatient services have increased their offer of digital services with most being held digitally now.
- Home First ethos with strong MDT working has continued.
- Strengthened relationship with the Acute hospital discharge command centres to facilitate early safe/supported discharge from hospital into the community beds or their usual place of residence

**Caring, Learning
& Growing Together**

Working with Others

- Primary Care Network
(PCN)

Closer working with Primary Care

- Tees Esk and Wear
Valley

Mental Health Services

- Harrogate Foundation
Trust

Podiatry Services

- Several services are still
provided by other
providers.
