

Climate Change Impact Assessment

The purpose of this assessment is to help us understand the likely impacts of our decisions on the environment of North Yorkshire and on our aspiration to achieve net carbon neutrality by 2030, or as close to that date as possible. The intention is to mitigate negative effects and identify projects which will have positive effects.

This document should be completed in consultation with the supporting guidance. The final document will be published as part of the decision making process and should be written in Plain English.

If you have any additional queries which are not covered by the guidance please email climatechange@northyorks.gov.uk

Please note: You may not need to undertake this assessment if your proposal will be subject to any of the following:

The Tenancy Strategy and Tenancy Policy IS AN legal requirement in line with Section 150 of the Localism Act 2011, which states:

(1) A local housing authority in England must prepare and publish a strategy (a “tenancy strategy”) setting out the matters to which the registered providers of social housing for its district are to have regard in formulating policies relating to -

- (a) The kinds of tenancies they grant
 - (b) The circumstances in which they will grant a tenancy of a particular kind
 - (c) Where they grant tenancies for a certain term, the lengths of the terms, and
 - (d) The circumstances in which they will grant a further tenancy on the coming to an end of an existing tenancy
- (2) The tenancy strategy must summarise those policies or explain where they may be found.

The Tenancy Strategy is a high-level overview of the strategic vision for across North Yorkshire, which will underpin the Tenancy Policy for North Yorkshire Council to deliver its housing management function.

Climate change and the potential environmental impacts of our strategy are key considerations for the Housing Service and the detailed analysis of specific projects will be carried out as they come forward for political decision.

What impact will this proposal have on council budgets? Will it be cost neutral, have increased cost or reduce costs?

The strategy and policy will be delivered within existing service budgets and will be cost neutral.
