Good Morning Sue,

I have three NYC contracts which terminate at the end of March 2025, & have three vehicles (including 090B).

It is my intention to cease trading at the end of March 2025, so I would like to relicense 090B enabling me to fulfil my contract obligations without the expense of buying a replacement vehicle.

The vehicle is mechanically sound & fit for purpose at this moment, so I would appreciate a 'three months' window to continue until then. I would be willing to surrender the license plates at the end of March 2025.

I will be using the vehicle on the school run only as I have not undertaken any other private hire work for many years

Regards,
