Hi

I have attached the necessary forms for the renewal of the above licence due end of April which because of its age will require an extension

We have owned this vehicle from new and is used as a school bus.

The contract which we use it for has been extended until April 26 and as a new bus costs £40k you will appreciate it would not be worthwhile financing the cost for a run twice a day

We recently had an inspection at our base by IPT with no problems and I showed him the vehicle and he agreed that he could not see any problems keeping it in service providing it passed the required tests which it did.

The mileage is high showing 320k but at 250k it had a major service including a replacement engine.

We do not want to cancel the school run and would appreciate it to be considered for a year's extension.

I have paid the £290 cost today.

If you have any problems, please do not hesitate to contact me.

Regards

-
