

Catterick Integrated Care Centre  
Richmond Area Committee  
10 November 2025

# About the project

Since 2015, the NHS and Ministry of Defence (MOD) have been working together to improve health and care services in Catterick Garrison and the wider Richmondshire area by addressing:

**Capacity** - Supporting the growing numbers of military personnel, dependants, families, and local residents.

**Integration** – Strengthening communication and coordination between services

**Parity** – Ensuring fairness between Military and NHS services

**Access** – Improving access to local Mental Health and Children’s services

**Availability** – Improving access to services in general

**Quality** – Upgrading estates and facilities

**Rurality** – Overcoming challenges of distance and travel

Trauma & Orthopaedics  
AAA Screening

# What have we achieved so far?

- Dedicated CICC webpage & FAQ log.
- Stakeholder newsletter – 226 members.
- Public Roadshows – over 800 engagements.
- Targeted engagement with local primary schools, Nepalese community, Veterans, VCSE, rural communities and Military Families.
- MOD engagement – including sports & employment fairs
- Staff workshops, change assessments and internal bulletins.
- MP visit to site
- Press releases, dedicated media day
- Public Site Drop-ins.

# Project Timeline

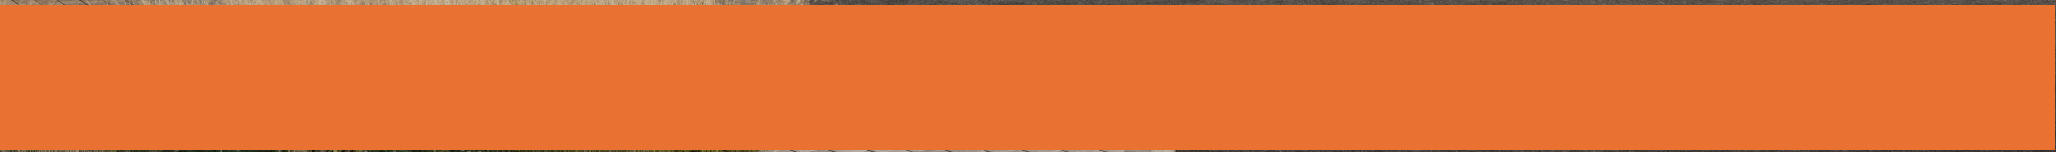

# Future of the Friary Hospital: Our Commitment

- The Friary Hospital remains essential to Richmond's primary and community care.
- Supports district nursing, intermediate care, and frail older adults' rehabilitation.
- Focus on home-based care to improve outcomes and maintain independence.
- System review underway to ensure bed-based services for complex needs continue.
- Collaborative planning with South Tees Hospital NHS Foundation Trust to design appropriate care solutions.
- Public engagement central to future decision-making and service development.

A birds-eye view....
