

## Initial Climate Change Impact Assessment (Form created August 2021)

The intention of this document is to help the council to gain an initial understanding of the impact of a project or decision on the environment. This document should be completed in consultation with the supporting guidance. Dependent on this initial assessment you may need to go on to complete a full Climate Change Impact Assessment. The final document will be published as part of the decision-making process.

If you have any additional queries, which are not covered by the guidance please email [climatechange@northyorks.gov.uk](mailto:climatechange@northyorks.gov.uk)

|---|--|
| <b>Title of proposal</b>  | <b>Regional Care Cooperative (RCC)</b>   |
| <b>Brief description of proposal</b>  | Request delegation of the decision to express an interest as part of a wider cooperative which includes 14 neighbouring Local Authorities to be part of the second phase of testing Regional Care Cooperatives. RCC's form part of the social care reforms, being a part of a cooperative that is testing models of delivery allows the opportunity to influence the models that will be rolled out nationally. The delegation of this decision allows for dialogue with the other LA before the EOI has to be submitted on 22/5/26 ensuring the decision is fully informed. |
| <b>Directorate</b>  | <b>CYPS</b>  |
| <b>Service area</b>   | <b>Partnerships and Sufficiency</b>  |
| <b>Lead officer</b>   | <b>Jo Heaney</b>   |
| <b>Names and roles of other people involved in carrying out the impact assessment</b> | <b>N/A</b>   |

The chart below contains the main environmental factors to consider in your initial assessment – choose the appropriate option from the drop-down list for each one.

Remember to think about the following;

- Travel
- Construction
- Data storage
- Use of buildings
- Change of land use
- Opportunities for recycling and reuse

| Environmental factor to consider                                     | For the council                     | For the county                      | Overall                             |
|--|-------------------------------------|-------------------------------------|-------------------------------------|
| Greenhouse gas emissions   | No effect on emissions              | No Effect on emissions              | No effect on emissions              |
| Waste  | No effect on waste                  | No effect on waste                  | No effect on waste                  |
| Water use  | No effect on water usage            | No effect on water usage            | No effect on water usage            |
| Pollution (air, land, water, noise, light)                           | No effect on pollution              | No effect on pollution              | No effect on pollution              |
| Resilience to adverse weather/climate events (flooding, drought etc) | No effect on resilience             | No effect on resilience             | No effect on resilience             |
| Ecological effects (biodiversity, loss of habitat etc)               | No effect on ecology                | No effect on ecology                | No effect on ecology                |
| Heritage and landscape   | No effect on heritage and landscape | No effect on heritage and landscape | No effect on heritage and landscape |

If any of these factors are likely to result in a negative or positive environmental impact then a full climate change impact assessment will be required. It is important that we capture information about both positive and negative impacts to aid the council in calculating its carbon footprint and environmental impact.
