

APPENDIX 19

From: [REDACTED]
To: [Licensing Central](#)
Subject: The Pateley club ref 183822
Date: 14 May 2026 17:13:51

I would like to put forward my support for the granting of a premises licence. As an ex steward and lifelong member I understand the importance of this long held communal hub. Generations of families have supported the club, of which we have members that are four generations of the same family, some of which are also local well respected business people who fully give their support. I cannot stress enough the impact it would have on our close knit community if the licence were not granted. I understand that the club committee and staff have been more than willing to cooperate with the nearby residents to alleviate their concerns, and they are also supported by North Yorkshire Police, I do hope you listen to the majority as I'm sure we, (and i speak on behalf of many members young and old) as members can work through this difficult time and resolve the issues raised.

Yours Sincerely

Yvonne Swires
Past Steward and lifelong member
